

**Kenneth M Faria Jr**

Honolulu Emergency Medical Services 04/2004 - Current

Starting as an Emergency Medical Technician in 04/2004, I was a trainee in a structured program, actively assisting and providing emergency medical services at the scene of accidents or distress, in transit, and at medical facilities.

Engaged as a trainee in a structured training program in emergency medical work; actively assisted and provided emergency medical services at the scene of accidents or distress, in transit, and at medical facilities.

07/2008 - 05/2012: Mobile Intensive Care Technician

Independently provided prehospital emergency medical care and emergency ambulance services at the advanced life support level as authorized by a base station physician or approved standing orders.

05/2012 - 02/2020: Mobile Extensive Care Supervisor

Oversaw and coordinated the activities of a unit providing prehospital emergency medical care and emergency ambulance services at the advanced life support level; actively participated in the provision of advanced emergency medical services on a shift; developed and conducted ongoing training related to the provision of prehospital medical care and emergency ambulance services.

02/2020 - current: Field Operations Supervisor

Plans, directs, and supervises the provision of prehospital medical care and emergency ambulance services for assigned ambulance field units; coordinates and oversees the training program concerned with the provision of prehospital medical care and emergency ambulance services; directs and supervises the communications program involving ambulance dispatching, scheduling/assignment of ambulance personnel and allied services, with responsibility for monitoring and coordinating various functions and activities of the ambulance field units, training program, or communications program.
