(Aug. 1976 to Nov. 1976)

Coordinated the activities of the computer operators, operated the operations center equipment and accessory devices. Operated IBM 360/40-DOS/GRASP, 370/145-OS/VS, 370/155 and 370/158 using OS/VS1, MVS/JES2 and MVS/JES3.

Computer Operator, Operations Department
(July 1974 to Aug. 1976)

Operated the operations center computer equipment and accessory devices with the goal of meeting production schedules and maximizing productivity. Operated IBM 360/40 DOS/GRASP, 370/145-OS/VS, 370/155 and 370/158 using OS/VS1, MVS/JES2 and MVS/JES3.

Lead Document Handler, Operations Department
(July 1973 to July 1974)

Coordinated activities of the document handlers as well as performing the duties of a document handler. Operated IBM 1419 micr-readers (sorters) on-line to a IBM 360/40 computer.

Document Handler, Operations Department
(June 1972 to July 1973)

Entered items on-line to the computer. Re-entered qualified items and forwarded remaining rejects to keypunch. Operated IBM 1419 micr-readers (sorters) on-line to an IBM 360/40 computer.

Programming Experience:

Peoples National Bank, Seattle, Washington
Programming Languages - COBOL, PL/1, ASSEMBLER

Aquasense Associates, ORCA Sea Farms Inc., Molokai, Hawaii
Programming Languages - C, 6502 Assembler

Maintenance Systems: Analyzed, wrote or altered programs, maintained systems, wrote JCL and utilities, set up jobs for production, used TSO and systems software, maintained on call status for production problems.

Scheduling Systems: Analyzed, wrote and implemented an production scheduling system for all users in a production environment. Used TSO and systems software.

Automated system: Analyzed , wrote and implemented an automated system using command procedures to execute a program in foreground for users to update, delete, add or change records to an existing 80.byte database stored on a 3375 direct access storage device unit.

User System: Analyzed, wrote a front end program to use by entering the user identification code submitted to users. Also wrote a menu to use with the front end program.
