# **Annual Report on Computer Science Education School Year 2024-2025**

October 2025

Section 302A-323, Hawai'i Revised Statutes, requires the Hawai'i State Department of Education to annually report on the computer science courses and computer science content offered during the previous school year at the schools in each complex area.

**Hawai'i State Department of Education  
Annual Report on Computer Science Education  
School Year 2024-2025**

**Introduction**

The Hawai'i State Department of Education's (Department) K-12 Computer Science (CS) Education program is dedicated to equipping students with the knowledge and skills necessary to succeed in an increasingly digital world powered by computing.

The program focuses on fostering critical thinking, problem solving, and computing literacy skills through comprehensive standards-based courses that are aligned to the five core computer science concepts across all grade levels. Emphasizing inclusivity, diversity, and real-world applications, the program aims to prepare students for future career opportunities and ensure they are well equipped to navigate and contribute to the technological computing advancements of the future.

**Computer Science Education Annual Data Reporting**

The purpose of this annual CS report is to document the Department's progress toward the CS education goals specified in HRS 302A-323. This is done by documenting the CS courses and content offered at public schools in each complex area during the 2024-2025 school year.

This annual report is based on data from the fourth quarter (Q4) of the 2024-2025 school year. In terms of the data sources used to create this report, all course and student enrollment data were provided by the Department's Data Quality Team. Data about instructors were provided by the Department's Office of Talent Management.

More information about the Department's CS program is available at <http://tiny.cc/HIDOECS>.

In addition, the aggregate data for the annual report can be viewed on Hawai'i Revised Statutes Section 302A-323 (Act 158, Session Laws of Hawai'i 2021) Reporting Data Dashboard at <https://bit.ly/2021Act158CSData>.
