
A BILL FOR AN ACT

RELATING TO GOVERNMENT ACCOUNTABILITY.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that there is a pressing
2 need to reduce the reliance on external consultants for work
3 that can or should be performed by qualified government
4 employees. Excessive outsourcing of government functions often
5 leads to increased costs, diminished accountability, and a loss
6 of institutional knowledge within public agencies. By
7 prioritizing the use of in-house expertise, the State can foster
8 greater transparency in its operations, ensuring that decisions
9 about the allocation of public funds are clear, justifiable, and
10 aligned with the best interests of taxpayers. Moreover,
11 reducing dependence on external consultants will promote cost
12 efficiency, enabling government agencies to allocate resources
13 more effectively while building and retaining institutional
14 capacity. Strengthening the role of public employees in
15 performing core government functions will also enhance the
16 long-term sustainability and independence of state operations.
17 Through these efforts, the legislature seeks to ensure that

1 public agencies are equipped to meet the evolving needs of the
2 State in a manner that is both responsible and effective.

3 Accordingly, the purpose of this Act is to reduce reliance
4 on external consultants for work that can be performed by
5 qualified government employees and ensure transparency, cost
6 efficiency, and the development of in-house expertise within
7 government agencies by:

- 8 (1) Requiring each purchasing agency to provide
9 justification for hiring external consultants;
- 10 (2) Capping the amount each agency can spend on external
11 consultants;
- 12 (3) Requiring each agency to seek approval from the
13 legislature for consulting contracts exceeding a
14 certain dollar amount;
- 15 (4) Requiring each agency to disclose all contracts with
16 external consultants;
- 17 (5) Requiring annual reports to the legislature;
- 18 (6) Requiring the compliance audit unit to conduct regular
19 audits of agency consultant contracts to assess
20 cost-effectiveness and compliance; and

(7) Requiring each chief procurement officer to ensure that inherent government functions are not delegated to a contractor.

SECTION 2. Chapter 103D, Hawaii Revised Statutes, is amended by adding a new section to part III to be appropriately designated and to read as follows:

"§103D- External consultants; justification; spending caps; reporting requirements; audits. (a) Notwithstanding section 103D-301, each purchasing agency shall:

21 external consultants for:

- 1 (1) Highly technical or niche expertise unavailable in the
2 State; and

4 response or urgent technical projects."

5 SECTION 3. Section 103D-205, Hawaii Revised Statutes, is
6 amended by amending subsection (a) to read as follows:

7 "(a) For their respective jurisdictions and unless
8 otherwise specifically provided in this chapter, each chief
9 procurement officer shall serve as the central procurement
10 officer for the officer's respective jurisdiction and:
