# A BILL FOR AN ACT

RELATING TO INSURANCE.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1       SECTION 1. The legislature finds that policyholders often  
2       lack sufficient information about how insurance rates are  
3       determined. This lack of transparency undermines consumer  
4       confidence and fosters distrust in the insurance industry.  
5       Drawing inspiration from states that have implemented robust  
6       insurance rate regulation and transparency measures that have  
7       successfully balanced consumer protection with market stability,  
8       the legislature finds that these measures aim to empower  
9       consumers through enhanced access to information, strengthen  
10      advocacy for fair treatment, and protect against arbitrary or  
11      unfair rate-setting practices. By fostering a more transparent  
12      and equitable insurance market, these provisions seek to promote  
13      greater trust and accountability within the industry.

14      Accordingly, the purpose of this Act is to:

- 15      (1) Establish rate transparency requirements for insurance  
16      companies operating in the State; and

1       (2) Establish an office of insurance consumer affairs  
2               within the insurance division of the department of  
3               commerce and consumer affairs to provide oversight,  
4               information, and consumer advocacy.
