[Status &
Testimony](#)

RELATING TO ELECTRIC VEHICLE BATTERIES.
Establishes an Electric Vehicle Battery Recycling and Reuse Working Group within the Hawaii State Energy Office. Requires the working group to examine how to maximize the recycling and reuse of electric vehicle batteries and recommend electric vehicle battery management practices. Requires a report to the Legislature.

EIG/AEN, WAM

Establishes the sustainable aviation fuel import tax credit.
Increases the renewable fuels production tax credit amount.
Repeals the: (1) cap amount of claimable renewable fuels production tax credit; (2) requirement that the tax credit be claimed for fuels with lifecycle emissions below fossil fuels; and (3) prohibition on claiming other tax credits for the cost incurred to produce renewable fuels. Specifies that the renewable fuels production tax credit can only be claimed for fuels that meet the certain thresholds. Adds an additional tax credit value. Clarifies that a taxpayer who previously claimed a renewable fuels production tax credit may claim another one for taxable years beginning after 12/31/2024. Clarifies and expands required information in the certified statement for the tax credit. Repeals the requirement that the Hawaii State Energy Office provide the taxpayer with a determination of whether the lifecycle greenhouse gas emissions for each type of qualified fuel produced is lower than that of fossil fuels.

Decision Making to follow, if time permits.
