## Application for Grants

*If any item is not applicable to the request, the applicant should enter "not applicable".*

### **I. Certification – Please attach immediately after cover page**

#### **1. Hawaii Compliance Express Certificate (If the Applicant is an Organization)**

If the applicant is an organization, the applicant shall submit one (1) copy of a Hawaii Compliance Express Certificate from the Comptroller of the Department of Accounting and General Services that is dated no earlier than December 1, 2025.

ATTACHED.

#### **2. Declaration Statement**

The applicant shall submit a declaration statement affirming its compliance with [Section 42F-103, Hawaii Revised Statutes](#).

ATTACHED.

#### **3. Public Purpose**

The applicant shall specify whether the grant will be used for a public purpose pursuant to [Section 42F-102, Hawaii Revised Statutes](#).

The requested grant in the amount of \$1,500,000 dollars will be used for a public purpose pursuant to Section 42F-102, Hawaii Revised Statutes. Construction of workforce housing will support the delivery of health care services to the remote, primarily Native Hawaiian population of the Hana District, assuring the health, wellness and safety of residents and those who visit the area.

### **II. Background and Summary**

This section shall clearly and concisely summarize and highlight the contents of the request in such a way as to provide the State Legislature with a broad understanding of the request. Please include the following:

#### **1. A brief description of the applicant's background;**

Hana Health is a 501(c)(3) non-profit organization and Federally Qualified Health Center (FQHC). The purpose of Hana Health is to improve the general health and well-being of the Hana community through the provision of medical care and other social, economic and health related programs. Hana Health is the only

health care provider in the Hana district, serving the primary health care and emergent medical needs of residents and visitors alike.

Hana Health currently provides primary medical, dental and behavioral health services to the people of Hana. Unlike most primary care clinics in the State and country, Hana Health coordinates activities with American Medical Response and Maui Memorial Medical Center in the provision of urgent/emergency medical services prior to transport to the hospital on the other side of the island. This takes place seven days a week, 24 hours a day. Hana Health is the source of almost all COVID-19 related services in the Hana District including testing, treatment and vaccination.

In calendar year 2024, Hana Health provided medical care to 1,844 individual patients, who accounted for 7,684 visits. Fifty five percent (55%) were at or below 200% of poverty level (1,019 patients). Sixty-Nine (69%) percent of patients served were insured through Medicaid or Medicare or were uninsured and provided with subsidized care. Forty-five percent (45%) of patients served were Native Hawaiian.

2. The goals and objectives related to the request;

Goal 1. To advance health equity for Hana's medically under- served population (designated by federal government) the majority of whom are Native Hawaiian or Part Hawaiian, as well as the persistently underserved, residents of this rural, isolated community.

Goal 2. To improve the health, well-being, resilience and economic security of all community residents through an expanded health care delivery system.

Objective A. Initiate and complete construction of on-site workforce housing in order to recruit and retain health care workers, locum tenens physicians and specialists. Specifically;

- Initiate and complete construction of two 500 sq. ft. studio units to be used by traveling medical providers/specialists, two 700 sq.ft. single family dwellings and two 1,000 sq. ft. single family dwellings to accommodate health center staff and their families, who are relocating to the area for employment with Hana Health, i.e. physicians, nurses, nurse practitioners, administrative staff.

3. The public purpose and need to be served;

Construction of modern health care and support service facilities including workforce housing will improve the health, wellness and safety of the resident population, as well as visitors to the area who often need urgent care for illness and injury. Without Hana Health, the only medical center in the District of Hana,

the entire resident population would be at greatly increased risk for serious, often fatal medical problems and injury resulting in death. Services close to home and the need for professionals to provide those services is critical in this remote community.

Located on the eastern side of the island of Maui, the moku (district) of Hana (Census tract 301) is one of the most isolated, rural areas in the state of Hawaii. The one-way trip from Hana to the population center of the island, takes approximately 2.5 hours, at a speed of between 10 and 25 miles an hour, along a single lane road with 617 turns and 56 one-lane bridges. If not for Hana Health, virtually all health care – primary, specialty, tertiary, ancillary, urgent/emergent services - would need to be obtained from the main population center on the other side of the island. Hana is federally designated as a Medically Under-Served Population, a Primary Care Health Professional Shortage Area, a Dental Health Professional Shortage Area and a Mental Health Professional Shortage Area.

According to U.S. Census 2019–2023 American Community Survey (ACS) 5-year data for Census Tract 301 in Maui County, the total population of the district is approximately 2,200 people. Approximately 46% of the population (1,025) identify as Native Hawaiians/Part Hawaiian.

Native Hawaiians and Pacific Islanders have among the highest rates of cardio-metabolic disorders which include obesity, diabetes and cardiovascular disease. Native Hawaiians have higher rates of death for diabetes and heart disease, as well as cancer and other leading causes of death as compared to the overall State's population (Center for Native and Pacific Health Disparities Research, John A. Burns School of Medicine, University of Hawaii).

The District of Hana is one of the poorest communities in the State, with a cost of living that is higher than the State average. Per capita income is \$30,609, compared to \$44,403 in Maui County and \$44,823 for the state. The median household income in the Hana District is \$52,304 compared to the States median household income of \$98,317 U.S. Census 2019-2024 American community Survey.

Overall, the standard of living in Hana is far below most other areas in the State. Based on numerous studies, the socioeconomic status of the district is presumed to have a negative impact on health status. Additionally, the economy of the district has a significant impact on the availability and accessibility of needed services and is a barrier to assuring a seamless system of health care.

The geographic isolation, lack of housing and the special health care needs of the Native Hawaiian population are factors which impact access to and delivery of health care services in the Hana District.

Continuity of care and access to an expanded level of primary and specialty care will be improved with the development of workforce housing for medical professionals and support staff. This serves the public purpose.

4. Describe the target population to be served; and

The entire District of Hana will benefit from this project. Native Hawaiians, children, the elderly, those with or at risk of chronic health conditions, those with specific medical conditions, and those with behavioral or mental health conditions are primary targets of the programs and services provided by Hana Health. Recruitment and retention of needed health care professionals to deliver care will improve if we address the need for safe, modern and affordable housing in this very remote community.

5. Describe the geographic coverage.

The District of Hana – Census Tract 301

### **III. Service Summary and Outcomes**

The Service Summary shall include a detailed discussion of the applicant's approach to the request. The applicant shall clearly and concisely specify the results, outcomes, and measures of effectiveness from this request. The applicant shall:

1. Describe the scope of work, tasks and responsibilities;

The Executive Director is responsible for managing the development of the workforce housing project and is working with G70 a full service architectural firm to complete all pre-development work and manage the construction project.

#### **A. Completed Work**

- Schematic Design phase completed. Includes preparation of complete design and basis of design; final code check; and consulting with Structural, Mechanical, Electrical, Plumbing (SMEP) engineers as to service options to the site. Final deliverables included the final schematic set which entails: a cover, code summary, floor and roof plans, elevations, building sections, corresponding SMEP basis of design narrative, and site civil and landscape design. A basis of design, conceptual exterior renderings, and updated conceptual estimate will be provided.
- Design Development Phase completed. Established the design elements, layout, size and finishes for the project. This phase would also included the final site electrical design and confirmed utility service requests. Final

deliverables included cover, code summary, floor and roof plans, finish schedules and corresponding SMEP plans and system schedules and details.

- Working Drawing/Construction Document phase completed.
- The building permit application was submitted to the Maui County Planning Department in February 2025 and is currently undergoing review. Approval of the building permit is expected by June 2026.

B. General Contractor and Construction

- Prepare and publish RFP for General Contractor, review and evaluate bids, select winning bid and execute contract.
- Initiate construction -
  1. Mobilization, Survey and Layout – General Contractor
  2. Site Preparation – General Contractor, Sub-Contractors
  3. Construction – General Contractor, Sub-Contractors
  4. Obtain Certificate of Occupancy
  5. Clean/Equip/Shakedown– General Contractor, Sub-Contractors
  6. Installation of equipment and furnishings.
  7. Final Reporting

2. Provide a projected annual timeline for accomplishing the results or outcomes of the service;

ATTACHED.

3. Describe its quality assurance and evaluation plans for the request. Specify how the applicant plans to monitor, evaluate, and improve their results; and

Hana Health is committed to providing quality services to all beneficiaries in an organization - wide effort to continuously improve our processes and the delivery of care to the community we serve. Hana Health maintains a Quality Assurance/Performance Improvement System to assure excellence in the quality

of care provided. The system is designed to increase accountability, support quality improvement, facilitate and support program decisions, monitor the population's health status, empower patients and families to make informed health care decisions and provide evidence to eliminate wasteful practices. Hana Health's quality assurance program measures, monitors, tracks and improves performance in key aspects of all operations.

The Board of Directors maintains oversight for the Quality Assurance/Performance Improvement Program and will be monitoring progress on this project as well.

G70 is the architect firm that has been contracted to design this project. Management of the construction project is included in their scope of services to be provided. This will ensure that the completed buildings support the design intent, conforms to the construction documents and ensures the quality of materials and workmanship. The architect will be available for advice and consultation with the Executive Director and the Board of Directors throughout the construction phase. Additionally, the project will be monitored against both time and cost objectives.

4. List the measure(s) of effectiveness that will be reported to the State agency through which grant funds are appropriated (the expending agency). The measure(s) will provide a standard and objective way for the State to assess the program's achievement or accomplishment. Please note that if the level of appropriation differs from the amount included in this application that the measure(s) of effectiveness will need to be updated and transmitted to the expending agency.

The Contractors work plan as included in the executed contract, will provide the objective basis for assessing the progress of the construction project. Payment will be made as each phase of the work plan is completed until a Certificate of Occupancy is secured.

Deliverables include:

Executed Contractors Agreement  
Certificate of Occupancy  
Photos of Completed Project

**IV. Financial**

**Budget**

1. The applicant shall submit a budget utilizing the enclosed budget forms as applicable, to detail the cost of the request.
  - a. Budget request by source of funds ([Link](#))
  - b. Personnel salaries and wages ([Link](#))
  - c. Equipment and motor vehicles ([Link](#))
  - d. Capital project details ([Link](#))
  - e. Government contracts, grants, and grants in aid ([Link](#))
  
2. The applicant shall provide its anticipated quarterly funding requests for the fiscal year 2027.

Quarter 1	Quarter 2	Quarter 3	Quarter 4	Total Grant
		750,000	750,000	1,500,000

3. The applicant shall provide a listing of all other sources of funding that they are seeking for fiscal year 2027.

Economic Development Agency - \$15,000,000  
 Hawaii Foundations - \$2,000,000  
 OHA - \$600,000

4. The applicant shall provide a listing of all state and federal tax credits it has been granted within the prior three years. Additionally, the applicant shall provide a listing of all state and federal tax credits they have applied for or anticipate applying for pertaining to any capital project, if applicable.

NA

5. The applicant shall provide a listing of all federal, state, and county government contracts, grants, and grants in aid it has been granted within the prior three years and will be receiving for fiscal year 2027 for program funding.

SEE PAGE 10 ATTACHED.

5. The applicant shall provide the balance of its unrestricted current assets as of December 31, 2025.

\$995,000

**V. Experience and Capability**

## 1. Necessary Skills and Experience

The applicant shall demonstrate that it has the necessary skills, abilities, knowledge of, and experience relating to the request. State your experience and appropriateness for providing the service proposed in this application. The applicant shall also provide a listing of verifiable experience of related projects or contracts for the most recent three years that are pertinent to the request.

Hana Health has been providing medical care to the district of Hana since July 1997 when the State transferred the operation of the Hana Medical Clinic to Hana Health (Act 263). State POS agreements have been awarded to Hana Health for the same period. Hana Health was granted Federally Qualified Health Center status in 2000 after meeting numerous requirements and has received federal operating support from the Bureau of Primary Health Care since that time.

Hana Health's Executive Director and Board of Directors has a demonstrated track record in securing and managing public and private funds for operations, capital improvement and special projects. In addition, Hana Health manages a twelve-acre project site leased from the State of Hawaii, which currently includes the medical center, an employee residence, administrative offices, Hana Fresh Nutrition Center built in 2012 (a \$2.3 million project), Hale Kuola Rehabilitation and Support Center, as well as the Hana Fresh organic farm and farm stand.

The Executive Director has managed three Environmental Assessments, construction of the \$2.3 million nutrition center, a \$900,000 medical center renovation project, an \$80,000 employee residence renovation project, the closure of four Large Capacity Cesspools and installation of three septic systems, a \$200,000 project, completed construction of the 3,800 sq. ft. Hale Kuola facility at a cost of \$6.2 million in December 2022, on time and on budget. She is also managing the development of a 30- acre parcel of property owned by Hana Health and located immediately behind the leased state property and is managing the development of a new specialty clinic and workforce housing (both on and off-site). She has navigated numerous federal, state and county regulations in the advancement of Hana Health's capital improvement projects.

## 2. Facilities

The applicant shall provide a description of its facilities and demonstrate its adequacy in relation to the request. If facilities are not presently available, describe plans to secure facilities.

Hana Health operates on a 2.035-acre parcel of property where the current medical center is located, and on an adjoining ten-acre parcel where the Hana Fresh farm is located. Both parcels are owned by the State of Hawaii and have been leased to Hana Health for 55 years, at \$1 per year. Except for the Hana Fresh Nutrition Center which was completed in May 2012 and the newly developed Hale Kūōla completed in

December 2022, Hana Health facilities range in age from more than 60 years old (the medical facility) to more than 100 years old and are in need of continual repair and maintenance. Built in 1965, the current 4,000 square foot medical center underwent a major renovation more than ten years ago (2015) including the installation of new windows, floors, central air conditioning and a new roof. However, the space is inadequate to meet the need for delivering comprehensive health care services to this isolated area.

**VI. Personnel: Project Organization and Staffing**

**1. Proposed Staffing, Staff Qualifications, Supervision and Training**

The applicant shall describe the proposed staffing pattern and proposed service capacity appropriate for the viability of the request. The applicant shall provide the qualifications and experience of personnel for the request and shall describe its ability to supervise, train and provide administrative direction relative to the request.

Staffing

Position Requirements

Executive Director

A minimum of 10 years experience in similar capacity.

The Executive Director is responsible for project implementation and oversight. She has worked with several architectural and planning firms to address the completion of state and federal environmental assessments, zoning issues, conceptual designs for the health center campus, schematic designs and construction documents for the Hana Health Nutrition Center and the Maui County building permit process. She managed construction of the Nutrition Center, as well as the permit process for the Telemedicine, Business and Training Center which did not move forward due to lack of approval from DLNR. Ms. Vasconcellos managed a \$900,000 state CIP grant for the renovation of the medical center and the installation of three new septic systems to replace the existing Large Capacity Cesspools located on the property as required by EPA. Ms. Vasconcellos has recently completed the development of Hale Kūola (Rehab Center), a \$6.2 million, 3,800 sq. ft. facility and is managing the construction of three off-site workforce housing units. She is currently working with G70 on securing a building permit for construction the Hana Health Specialty Clinic, on-site Workforce Housing and agricultural facilities.

**2. Organization Chart**

The applicant shall illustrate the position of each staff and line of responsibility/supervision. If the request is part of a large, multi-purpose organization, include an organization chart that illustrates the placement of this request.

ATTACHED.

### 3. Compensation

The applicant shall provide an annual salary range paid by the applicant to the three highest paid officers, directors, or employees of the organization by position title, not employee name.

Medical Director	\$256,600 - \$384,900
Physician	\$242,100 - \$363,200
Executive Director	\$180,200 - \$270,300

## VII. Other

### 1. Litigation

The applicant shall disclose any pending litigation to which they are a party, including the disclosure of any outstanding judgement. If applicable, please explain.

NA.

### 2. Licensure or Accreditation

The applicant shall specify any special qualifications, including but not limited to licensure or accreditation that the applicant possesses relevant to this request.

All clinical staff are appropriately licensed and credentialed

### 3. Private Educational Institutions

The applicant shall specify whether the grant will be used to support or benefit a sectarian or non-sectarian private educational institution. Please see [Article X, Section 1, of the State Constitution](#) for the relevance of this question.

NA.

### 4. Future Sustainability Plan

The applicant shall provide a plan for sustaining after fiscal year 2027 the activity funded by the grant if the grant of this application is:

- (a) Received by the applicant for fiscal year 2027, but
- (b) Not received by the applicant thereafter.

This is a CIP request which will not require on-going funding.

Not Compliant	The entity is not in compliance with the requirement and should contact the issuing agency for more information

**DECLARATION STATEMENT OF  
APPLICANTS FOR GRANTS PURSUANT TO  
CHAPTER 42F, HAWAII REVISIED STATUTES**

The undersigned authorized representative of the applicant certifies the following:

- 1) The applicant meets and will comply with all of the following standards for the award of grants pursuant to Section 42F-103, Hawaii Revised Statutes:
  - a) Is licensed or accredited, in accordance with federal, state, or county statutes, rules, or ordinances, to conduct the activities or provide the services for which a grant is awarded;
  - b) Complies with all applicable federal and state laws prohibiting discrimination against any person on the basis of race, color, national origin, religion, creed, sex, age, sexual orientation, or disability;
  - c) Agrees not to use state funds for entertainment or lobbying activities; and
  - d) Allows the state agency to which funds for the grant were appropriated for expenditure, legislative committees and their staff, and the auditor full access to their records, reports, files, and other related documents and information for purposes of monitoring, measuring the effectiveness, and ensuring the proper expenditure of the grant.
- 2) If the applicant is an organization, the applicant meets the following requirements pursuant to Section 42F-103, Hawaii Revised Statutes:
  - a) Is incorporated under the laws of the State; and
  - b) Has bylaws or policies that describe the manner in which the activities or services for which a grant is awarded shall be conducted or provided.
- 3) If the applicant is a non-profit organization, it meets the following requirements pursuant to Section 42F-103, Hawaii Revised Statutes:
  - a) Is determined and designated to be a non-profit organization by the Internal Revenue Service; and
  - b) Has a governing board whose members have no material conflict of interest and serve without compensation.

Pursuant to Section 42F-103, Hawaii Revised Statutes, for grants used for the acquisition of land, when the organization discontinues the activities or services on the land acquired for which the grant was awarded and disposes of the land in fee simple or by lease, the organization shall negotiate with the expending agency for a lump sum or installment repayment to the State of the amount of the grant used for the acquisition of the land.

Further, the undersigned authorized representative certifies that this statement is true and correct to the best of the applicant's knowledge.
