See attached.

3. Public Purpose

The applicant shall specify whether the grant will be used for a public purpose pursuant to [Section 42F-102, Hawaii Revised Statutes](#).

The initiative meets a public need/purpose to 1) provide mental wellness programming for youth across the state, 2) provide youth leadership programs and out-of-school time programs to keep youth safe and off the streets in the urban core, 3) support Title 1 nearby DOE schools through program collaborations, and 4) transform the aging Nu'uaniu Y campus to better serve keiki, kupuna, and the community. This directly addresses urgent and prominent issues of loneliness and isolation voiced both by our community and documented in research conducted and reported in the 2023 Surgeon General's Advisory, "Our Epidemic of Loneliness and Isolation." A community gathering space is needed in these neighborhoods. The YMCA reduces barriers to access by providing financial assistance to those who can't afford to use the facilities and participate in programming.

II. Background and Summary

This section shall clearly and concisely summarize and highlight the contents of the request in such a way as to provide the State Legislature with a broad understanding of the request. Please include the following:

1. A brief description of the applicant's background;

The YMCA of Honolulu provides critical programs and services that enrich communities through its mission to build a healthy spirit, mind, and body for all. Guided by our core values of caring, honesty, respect, responsibility, and diversity, the Y is dedicated to giving people of all ages, backgrounds, and walks of life the opportunity to reach their full potential with dignity.

Founded in 1869, the YMCA of Honolulu (Y) was incorporated under the laws of the Kingdom of Hawai'i in 1882. We are an independent, local, tax-exempt 501(c)(3) organization that has grown to become one of the largest nonprofit organizations in Hawai'i. With our long history, the Y has provided programs and activities for generations. The Y has changed with the times, customs, and philosophies to meet the evolving needs of the community.

For more than 150 years, the Y has been a catalyst for positive change in our islands. The Y delivers programs and services at nine Y facilities and more than 100 other locations, many of them schools across O'ahu, as well as programs on Kaua'i, Moloka'i, Lāna'i, and Maui. The Y serves more than 50,000 people of all ages each year with a focus on healthy living, youth development, and social responsibility.

The following are examples of some of the Y's programs and services:

- 75 children ages 2 to 5 years attend Y Preschools (full and part-time), while 90 families wait patiently on a waitlist for a new site to launch. Plans to increase our capacity to serve more families include securing additional community delivery locations.
- The YMCA College Camp has helped more than 600 underserved high school students realize that higher education is within their reach by providing a network of support and resources to apply for and succeed in college.
- Seasoned teen counselors and directors, along with mental health professionals, have developed programs to prevent mental health problems and identify and provide needed interventions to help struggling youth. Last year, preventive and intervention-level mental health programs helped over 1,605 elementary, middle, and high school students.
- As the island's largest provider of kūpuna programs, serving thousands through insurance programs, meal programs or regular memberships, the Y provides nutrition, health, and wellness activities to keep kūpuna healthy.

2. The goals and objectives related to the request;

The goal of this request is to acquire funding to ***complete the design phase of the initiative***, which is a robust, multi-faceted, long-term plan to reimagine a community hub in downtown Honolulu.

The Y has an opportunity to address some of the state's most pressing issues, including housing, mental wellness, health disparities, and early childhood education. We have

launched a comprehensive fundraising campaign that is focused on both capital and program needs that will 1) help increase the number of early childhood education seats available to support working families, 2) provide mental wellness programming for youth across the state, and 3) transform the aging Nu‘uanu Y campus to better serve keiki, kūpuna, and the greater community. The Y is requesting support for Phase 1 of the Nu‘uanu Y initiative.

Of these three focus areas, the redevelopment of the Nu‘uanu Y campus will significantly increase the number of people we serve, as well as those to be served through an affordable housing partner. Centrally located in the iconic gateway to downtown Honolulu, the Nu‘uanu Y has served the community at its current location since 1963. Over 5,000 people annually visit the Nu‘uanu Y, which provides health and wellness programs, youth and leadership programs, and kūpuna services.

Construction of a new 50,000 square-foot modern, multi-story building will allow the Y to maximize outdoor spaces and include areas that welcome youth, kūpuna, and community members to gather for fellowship and engagement and to foster their sense of belonging—one of the pillars in the social determinants of health. New technology-equipped multipurpose spaces will enable us to provide in-person and virtual classes and expand mental wellness programs on-site and in the community. Members will enjoy a gymnasium, wellness, meeting and program spaces, and an outdoor pool. Plans for the lobby to be open to the community include a café, a community meeting space, and a healthcare facility run by a partner organization.

One of the most impactful developments in the plan will be Phase 2: The construction of housing towers providing a mix of 300+ affordable and workforce housing units to address Honolulu’s severe housing shortage. Data show that 25 percent of adults 65+ years are socially isolated, and 8.5 percent live below the poverty level. Housing on the Y campus will provide kūpuna with a safe place to live and access to programming that can contribute to their quality of life with better health outcomes. Within walking distance of our campus are high-quality healthcare, pharmacy, grocery, government services, and other important retail elements for kupuna and families.

With its proximity to green space and educational institutions, plus all of the important services mentioned above, the Nu‘uanu campus will become a hub for a thriving community in the downtown area.

For this funding request, the following objectives will be accomplished:

- Objective 1: Complete concept design drawings
- Objective 2: Complete schematic design drawings
- Objective 3: Secure permits

The YMCA has initial concept designs and a viable budget that have allowed us to begin a campaign and achieve significant early support for the project. Outside of this grant, upon full completion, we will track increases in membership, access to affordable

housing, engagement of members (as an indicator of social connectedness), and many other metrics to quantitatively show impact across multiple domains.

3. The public purpose and need to be served;

The public purpose is to provide an accessible hub for people to thrive while addressing the need for early childhood education, mental wellness support, and engagement opportunities. The initiative also paves the way for future affordable housing.

In 1917, five YMCA leaders made a bold decision to combine the separate Japanese, Chinese, Korean, and Filipino YMCA associations into a single, unified branch where everyone would be welcomed. The branch they founded was the Nu'uaniu YMCA. At a time when racial segregation was prevalent in many parts of the U.S., this decision stood as a landmark achievement for racial integration and a powerful example for YMCAs nationwide. Those five leaders were Frank C. Atherton, Dr. Iga Mori, Dr. Wm. D. Westervelt, Dr. Singman Rhee, and Chung K. Ai. The culture of inclusiveness they envisioned remains a core value instilled in the current Nu'uaniu Y, now located at the corner of Pali Hwy. and Vineyard Blvd.

In the fall of 2022, a feasibility study of community leaders revealed three initiatives that were of high priority for stakeholders. These are expanding early childhood education, supporting youth mental wellness, and rebuilding the Nu'uaniu Y facility with affordable housing (Phases 1 & 2). Redevelopment of the Nu'uaniu Y campus also presents an opportunity for the Y to build much-needed housing for working families, allowing the Y to maximize the usage of its 2.6-acre property. This exciting project promises to be transformational for the greater community and the Y.

1. Reimagining the Nu'uaniu Campus - Constructed in 1963, the Nu'uaniu Y building is showing its age. This presents a timely opportunity for the Nu'uaniu Y to once again lead the way in transforming a community. Redeveloping the Nu'uaniu campus will enable the Y to expand its programs and facilities to address some of the state's most pressing issues.
2. Housing for Working Families - With more people living without shelter or struggling with high rents, housing on O'ahu continues to be a challenge. According to a 2019 State Department of Business, Economic Development & Tourism report, O'ahu needs about 5,200 additional affordable housing units for each of the next five years.
3. Early Childhood Education - About half of Hawai'i's keiki do not attend preschool. The state estimates that Hawai'i needs roughly 400 additional classrooms to reach its goal of universal preschool access by 2032. Researchers report that high-quality preschool education can be critical in preparing children for academic achievement and success in life. Last year, only 30% of kindergarteners entering Hawai'i public schools demonstrated readiness in areas such as physical development, social skills, literacy, and math. Our goal is to open 500 classroom seats to do our part to narrow that gap, whether on Y campuses or in community locations.

4. Youth Mental Wellness - While teens often face challenges, today's youth struggle with mental health issues at higher rates than ever. The Office of the Surgeon General's 2023 Advisory on Social Media and Youth Mental Health reports that up to 95% of young people aged 13-17 report using a social media platform. It also states that youth who spend more than 3 hours a day on social media face double the risk of mental health problems, including symptoms of depression and anxiety.¹ In February 2024, the Hawai'i State Dept. of Education reported that more than 1/3 of public high school students reported feeling sad or hopeless almost every day for two or more weeks; some continue to struggle with suicide ideation. The Y will expand its Mental Health services to teens.

4. Describe the target population to be served; and

The YMCA strives to serve all, regardless of ability, economic status, race, or religion, and our demographic surveys confirm that we consistently meet the needs of the community broadly.

5. Describe the geographic coverage.

The Nuuanu YMCA is located in the heart of downtown Honolulu. The urban neighborhood has a very high percentage of low-income people (justicemap.com, based on the 2020 census). In the 96813 zip code/census tract, 28% of people speak a language other than English, 20% of the population is 65 or older, and the median household income is more than \$10,000 less than the state level. The site is within walking distance of many amenities, including elementary and middle schools, a pharmacy, Kamamalu Neighborhood Park, healthcare, pharmacy, grocery, government offices, downtown office workers, and other important services.

III. Service Summary and Outcomes
