## LEGISLATIVE REPORT

### SUBJECT

Requiring the Board of Education (Board) to issue to the Governor, Legislature, and public, an annual report on the State's public charter schools, drawing from the annual reports submitted by every authorizer, as well as any additional relevant data compiled by the Board, for the school year ending in 2025. The annual report shall include:

1. The Board's assessment of the successes, challenges, and areas for improvement in meeting the purposes of chapter 302D, Hawaii Revised Statutes (HRS), including the Board's assessment of the sufficiency of funding for public charter schools, and any suggested changes in state law or policy necessary to strengthen the State's public charter schools;
2. A line-item breakdown of all federal funds received by the Department of Education (Department) and distributed to authorizers;
3. Any concerns regarding equity and recommendations to improve access to and distribution of federal funds to public charter schools;
4. A summary of the criteria used by the charter school facilities funding working group, established pursuant to section 302D-29.5, HRS, in allocating facilities funding;
5. A detailed breakdown of the allocation of funding through general funds and bond funds;
6. A detailed list of the projects funded by general funds and bond funds;
7. The status of funding for projects previously awarded; and
8. A discussion of all Board policies adopted in the previous year, including a detailed explanation as to whether each policy is or is not applicable to charter schools.

Section 302D-21, HRS.

## **ACTION REQUESTED**

Report to the 2026 Legislature.

## **REPORT**

This is the 14<sup>th</sup> annual report provided by the Board pursuant to Act 130, Session Laws of Hawaii (SLH) 2012, codified as chapter 302D, HRS, and subsequently amended. The goal of Act 130, SLH 2012, was to strengthen the Hawai‘i charter school governance structure by establishing clear lines of authority, roles, and responsibilities that ensure accountability of the charter school system. A key aspect of chapter 302D, HRS, is increased oversight and accountability of charter schools and the authorizers that oversee them.

This year’s report builds on past reports. As required by law, this report draws from the annual reports submitted by every authorizer – which currently includes only the State Public Charter School Commission (Commission). The Commission’s own annual reports are available on its website here:

<http://www.chartercommission.hawaii.gov/reports>.

## **FINDINGS**

**(1) The Board’s assessment of the successes, challenges, and areas for improvement in meeting the purposes of chapter 302D, HRS, including the Board’s assessment of the sufficiency of funding for public charter schools, and any suggested changes in state law or policy necessary to strengthen the State’s public charter schools.**

### **SUCCESSES**

New school openings and expansion. The Commission’s charter school portfolio grew significantly with the opening of Kūlia Academy on O‘ahu, Namahana School on Kaua‘i, and Parkway on O‘ahu, Hawai‘i’s first prekindergarten-only charter school.

New strategic plan. The Commission adopted a new five-year strategic plan in January 2025, which identifies an inspiring vision, a mission statement that defines its role as an authorizer, and establishes attainable activities to help achieve organizational goals.

Charter contract revisions. The Commission is finalizing an updated contract framework that aims to promote high-quality educational options for students and families, by reflecting the collective input gathered through engagement with diverse stakeholders across the charter school community.

Personnel review process. The Commission is piloting a process that annually reviews the work of individuals and the office to strengthen organizational capacity and ensure that staff contributions directly support the Commission's mission to authorize, assess, and acclaim high-quality charter schools.

Charter school summit. An inaugural charter school summit was held in July 2024, with charter school leaders, governing board members, commissioners and staff, and community partners, to foster meaningful dialogue and relationship-building across schools, strengthening the statewide charter school network.

## CHALLENGES AND AREAS FOR IMPROVEMENT

Kamalani Academy non-renewal and closure. In June 2023, Kamalani Academy was approved for a two-year contract under certain conditions. After reviewing the school's performance report in January 2025, Commissioners took action to non-renew the contract. Beginning in February 2025, the Commission worked with Kamalani Academy's governing board and administration to facilitate a process to ensure a smooth transition for students and families and an orderly shutdown of operations in June 2025.

Funding discrepancies. The Commission states that it continues its work with the Hawai'i Department of Education (Department) on equitable federal funding allocations and on clarifying the Department's roles and responsibilities to charter schools in its function as both the state educational agency and local educational agency.

It indicates that ensuring charter schools are included and supported in statewide educational initiatives remains a primary area of focus and concentration for the Commission.

The Commission also notes that the cuts and volatility that have impacted federal educational funding have added uncertainty regarding whether programs that have supported English language learners, special needs students, and financially disadvantaged students will continue to function and serve the needs of students and their families.

Outside of federal funding challenges, the Commission indicates that charter schools continue to face substantial inequality in per-pupil funding compared to Department schools, which inhibits charter schools' abilities to improve academic performance. The funding disparity is further exacerbated by the charter schools' need to secure and pay for their own school buildings, which typically absorbs 15-30 percent of a school's annual budget, diverting funds away from licensed educators and classroom supplies.

Collective bargaining. The Commission continues to request full funding for collectively bargained teacher differentials to assist in the recruitment and retention of teachers for hard-to-staff areas and for Hawaiian immersion programs. It also requests clarification on the funding of collective bargaining increases, so charter schools can become aware of when and why funding is provided as separate appropriations, rather than being included in the per-pupil funding methodology.

Perennial challenges. The Commission notes several systemic challenges that continue to hinder the ability of the charter schools to successfully implement their missions and achieve academic success for their public school students.

- Charter schools are not funded equally with Department schools, creating persistent resource inequities.
- Chapter 302D, HRS, has not been comprehensively revised since 2016 and is not fully aligned with industry best practices as the charter school landscape has matured and evolved in Hawai‘i as well as nationally. Some of the revisions needed should address the following:
  - The interpretation that Commission staff are unable to provide support to the schools it authorizes, to assist in the achievement of high-quality outcomes, is atypical among charter school authorizers across the nation; and
  - The statute should be broadened to allow more competition among auditing firms to lower costs for charter schools while also requiring more comprehensive independent audits to help the Commission better understand each school’s financial health.
- The structure of Hawai‘i’s public education system – with the Department serving as both the statewide educational agency (SEA) and local educational agency – creates inequalities for charter schools and their educators:
  - Many professional development opportunities provided by the Department are reserved only for Department employees; and
  - It is unclear whether Department communications are intended for all Hawai‘i public schools or Department schools only, resulting in lost opportunities for charter schools to receive the same SEA support as Department schools.

**(2) A line-item breakdown of all federal funds received by the Department and distributed to authorizers.**

Please see the attached Exhibit A.

**(3) Any concerns regarding equity and recommendations to improve access to and distribution of federal funds to public charter schools.**

As explained in the challenges portion of this report, the Commission states that it continues its work with the Department on equitable federal funding allocations and on clarifying the Department's roles and responsibilities to charter schools in its function as both the state educational agency and local educational agency.

It indicates that ensuring charter schools are included and supported in statewide educational initiatives remains a primary area of focus and concentration for the Commission.

The Commission also notes that the cuts and volatility that have impacted federal educational funding have added uncertainty regarding whether programs that have supported English language learners, special needs students, and financially disadvantaged students will continue to function and serve the needs of students and their families.

**(4) A summary of the criteria used by the charter school facilities funding working group, established pursuant to section 302D-29.5, HRS, in allocating facilities funding.**

As noted above and in previous reports, the Commission adopted a charter school facilities funding framework with criteria to determine the distribution of facilities funds – see pages 278-280 of the Commission 2019-2020 annual report at <http://www.chartercommission.hawaii.gov/reports>. The Commission's framework includes a process for soliciting and evaluating applications for facilities funding. Charter schools with virtual education as the primary method of delivering core subject instruction or with school facilities already paid for by the State are ineligible to apply.

The criteria for prioritizing applications for facilities funding include:

- Needs of the charter school, such as the existence of substandard facilities, other equity and adequacy needs, and issues of health, safety, and legal compliance;
- Overall benefit to its surrounding community, such as overcrowding relief for Department schools or providing options for families whose Department school is low performing;
- Amount of risk and availability of recourse to the State;
- Whether the charter school received facilities funding through other state funding;
- School facilities located on state property or under an agreement whereby the State controls the property with at least 20 years remaining; and
- Title I status.

To date, the criteria described above have not been used to allocate facilities funding because the Legislature has not yet appropriated general funds or issued bond authorization to charter schools for facilities, pursuant to section 302D-29.5, HRS.

**(5) A detailed breakdown of the allocation of funding through general funds and bond funds.**

The Legislature has not yet appropriated general funds or issued bond authorization to charter schools for facilities.

**(6) A detailed list of the projects funded by general funds and bond funds.**

There are currently no charter school facilities projects being funded by general funds or bond funds.

**(7) The status of funding for projects previously awarded.**

No charter school facilities projects have been awarded general funds or bond funds.

**(8) A discussion of all board policies adopted in the previous year, including a detailed explanation as to whether each policy is or is not applicable to charter schools.**

As it has done in past reports, the Board is again providing a full list of all current policies, attached as Exhibit B, indicating whether each policy is applicable to charter schools.

Since its last report, the Board amended Policy 500-2 (Plan of Organization) and Policy 500-8 (Accreditation of Schools), and adopted Policy 500-28 (Compensation Philosophy for the Superintendent of Education and Subordinate Superintendents) and Policy 600-8 (Compensation Philosophy for the State Librarian).

## **FUTURE ACTIONS**

As it has done in previous years, the Board once again urges the Legislature to provide equitable funding to the charter schools, which the Commission has consistently identified as a critical issue in its annual reports.

In past reports, the Board has also recommended that the Legislature establish a task force and work with relevant stakeholders to reexamine governance, authority, and accountability structures. The Board recognizes the importance of revising statute to update and align chapter 302D, HRS, with current best practice.
