The Honorable Nadine K. Nakamura
Speaker of the House of Representatives
Thirty-Third State Legislature
State Capitol, Room 431
Honolulu, Hawai'i 96813

Dear Senate President Kouchi and Speaker Nakamura:

Pursuant to Act 10, SLH 2024, I am transmitting reports submitted by applicable State departments reflecting expenditure information from the Department of Defense's Major Disaster Fund relating to the Hawai'i wildfires as of January 2026. As required by Section 93-16, HRS, this report will be available for viewing electronically at: https://budget.hawaii.gov/budget/reports-to-the-legislature/department-of-budget-finance/.

Should there be any questions, please have your staff contact Mr. Roderick Becker, Acting Administrator of this department's Budget, Program Planning and Management Division, at (808) 586-1612.

Sincerely,

SETH S. COLBY, Ph.D.
Director of Finance

UOH 100	113564	N	Click2Mail	Click2Mail is an online mailing service that allows users to send physical mail (letters, postcards, brochures, etc.) directly from their computer. It simplifies the process of printing, addressing, and mailing documents by integrating these steps into an online platform. We need these mailers from click2mail.com to further support recruitment efforts for the Maui Wildfire Exposure Study and Maui Registry. We have restructured our approach to recruitment and outreach beyond digital methods such as email, text message, location based fliers and are attempting EDDM or Every Door Direct Mail campaign. EDDM is considered one of the best ways to reach our target population. This advertisement is a clear message to anyone affected by the 2023 Fires of a simple way they can be involved in our project. We have identified key locations where these individuals likely have moved to and where they keep PO boxes.	A	PO 293488	4,187.80	01/16/25

UOH 100	113564	N	UH Payroll Charges 1/1/25 - 1/15/25	3 Graduate Research Assistants: The Graduate Research Assistants plays a pivotal role in facilitating groundbreaking research initiatives to enhance community well-being. With a strong emphasis on data management, the assistant oversees the organization and maintenance of data to ensure its accuracy, security, and accessibility. This involves supporting and implementing data policies, as well as facilitating data-driven decision-making processes to support analysis and reporting. Additionally, the assistant contributes to the communication, dissemination and implementation goals of the study by writing papers, reports, and other necessary documents. The assistant is also expected to provide non-research administrative support to streamline project operations and aid in participant recruitment, with a focus on minimizing the burden of team leadership. Regular communication with participants and individuals from diverse backgrounds outside the economics field is maintained to foster strong relationships and promote community engagement. Through these multifaceted tasks, the Graduate Research Assistant actively contributes to advancing research objectives while gaining valuable experience in interdisciplinary collaboration and community outreach. Other related duties as needed.	A	UH Payroll	3,940.50	02/05/25
UOH 100	113564	N	UH Payroll Charges 1/16/25 - 1/31/25	UH Assistant Specialist: comprehensively monitor and analyze the health impact of the Maui wildfires. UOH 100	113564	N	RCUH Payroll February - March	Project Manager: Facilitates procurement and payment actions, as well as personnel actions, following established best practices, policies, procedures, and regulations. Prepares, processes, and provides support and guidance for budget and expenditure projection and control, compiles fiscal reports, and general administration, as well as, logistic support for projects. Project Coordinator: Oversees a critical research initiative in the Maui Wildfire Exposure Study to assess the environmental and public health impacts of wildfires on the island of Maui. Leads the planning and implementation of the MauiWES. Ensures goals and objectives are aligned with stakeholder expectations. Programmer: Plays a crucial role in the Maui Wildfire Exposure Study and Registry in both front-end and back-end development. Designs and develops software applications for data collection, storage, and analysis, and implementing user interfaces and dashboards for data visualization to ensure a seamless user experience. Develops and maintains databases. Writes and optimizes SQL queries, and implements data backup and recovery procedures. Community Liaison: Acts as the main contact, addresses concerns, provides information, and supports recruitment events. Collaborates with the research team to create culturally sensitive materials. Disseminates study information to the community, and coordinates with local organizations to enhance support networks and address community needs. Community Leader: Oversees all aspects of the Maui Wildfire Exposure Study and Registry, including coordinate and support data and biomedical collections, analysis and dissemination of findings. Web Developer: Develop and maintain a user-friendly, accessible website to share research findings, resources, and updates for the Maui Wildfire Health Research Project. Collaborate with the team to ensure effective communication of health data and community engagement. Postdoc Researcher: Conduct and publish impactful research on the health effects of wildfire exposure, collaborating with interdisciplinary teams and community stakeholders to inform recovery efforts. Responsibilities include data analysis, manuscript preparation, and public outreach. Data Analysts: Analyze and interpret health and environmental data related to wildfire impacts, supporting research and community outreach efforts. Collaborate with the team to generate actionable insights and develop visualizations for reports and presentations.	A	IB 11324323	145,506.93	03/20/25

UOH 100	113564	N	Ruben Juarez	Traveler, Ruben Juarez, will be attending and hosting the Maui Wildfire Exposure Study (MauiWES) Workshop at the Sheraton Maui from 12/4/24 - 12/8/24, and will be traveling from HNL, Oahu - OGG, Maui - HNL, Oahu. The purpose of the workshop is to bring together national experts and partners to focus on advancing community resilience and developing long-term health strategies. The workshop will feature discussions on best practices in community engagement, registry management, and providing ongoing support to disaster-affected communities. The goal is to collaboratively develop a comprehensive and resilient health strategy that can benefit Hawaii and other communities facing similar challenges. Traveler will assist with registration, attendee support, logistics coordination, and ensuring sessions run smoothly. Traveler only requires airfare and M&IE for 12/4-7. Lodging will be at the Sheraton Maui and covered by a PO (#294832, Requisition#10870687). For the event on 12/7-8, traveler will be checking out of Sheraton Maui and checking into the Courtyard Kahului Airport hotel for one night. Traveler is renting a larger car in order to transport large medical supplies and UH staff/faculty. The workshop is free and there's no option to opt out of meals or refreshments. UOH 100	113564	N	UH Payroll Charges 3/1/25 - 3/15/25	The Graduate Research Assistants plays a pivotal role in facilitating groundbreaking research initiatives to enhance community well-being. With a strong emphasis on data management, the assistant oversees the organization and maintenance of data to ensure its accuracy, security, and accessibility. This involves supporting and implementing data policies, as well as facilitating data-driven decision-making processes to support analysis and reporting. Additionally, the assistant contributes to the communication, dissemination and implementation goals of the study by writing papers, reports, and other necessary documents. The assistant is also expected to provide non-research administrative support to streamline project operations and aid in participant recruitment, with a focus on minimizing the burden of team leadership. Regular communication with participants and individuals from diverse backgrounds outside the economics field is maintained to foster strong relationships and promote community engagement. Through these multifaceted tasks, the Graduate Research Assistant actively contributes to advancing research objectives while gaining valuable experience in interdisciplinary collaboration and community outreach. Other related duties as needed.	A	UH Payroll	3,940.50	04/04/25

The purpose of the visit is to collect a range of biometric samples blood, urine, buccal swabs, saliva, and spirometry data to assess the health impacts of recent wildfire exposure on Maui residents. This data is essential to understand the long-term health effects of the wildfires and requires specialized collection protocols to ensure accuracy and safety. Traveler will assist with operating the specific equipment/machines and tools needed for precise sample collection to ensure smooth and efficient operations. Traveler requires M&IE. Airfare will be covered by City Travel PO #299889. Lodging will be at the Sheraton Maui between Feb 7-8 will be covered by a PO #297329. Traveler will be sharing a room with Dr. RUBEN JUAREZ (T648640).	A	T648642	267.75	04/15/25
UOH 100	113564	N	Kyo Ya Hotels and Resorts	RESERVATION FOR HOTEL ROOMS FOR THE MAUI WILDFIRE EXPOSURE STUDY AND REGISTRY (MAUIWES) STUDY AT THE SHERATON MAUI ON APRIL 25 - APRIL 27, 2025. 1 Room for 2 nights (April 25-27,2025) and 6 Rooms for 1 night (April 26 -27, 2025).	A	PO 302240	3,302.96	04/29/25
UOH 100	113564	N	Ruben Juarez	Traveler, Dr. Ruben Juarez will be assisting with the Maui Wildfire Exposure Study (MauiWES) Collection Event at the Lahaina Comprehensive Health Center (Akoakoa Pl, Lahaina, HI 96761) from 2/28/25 - 3/2/25. The purpose of the visit is to collect a range of biometric samples blood, urine, buccal swabs, saliva, and spirometry data to assess the health impacts of recent wildfire exposure on Maui residents. This data is essential to understand the long-term health effects of the wildfires and requires specialized collection protocols to ensure accuracy and safety. Traveler will assist with operating the specific equipment/machines and tools needed for precise sample collection to ensure smooth and efficient operations. Traveler requires car rental and M&IE. Airfare will be covered by PO#299024 via City Travel. Lodging will be at the Sheraton Maui between Feb 28- Mar 2 will be covered by a PO #298408. He will be sharing a room with Alika Maunakea (UH Faculty, T649547). A large rental car of 12 passengers is required as they will be transporting the staff, various medical supplies, and luggage. This rental car upgrade to a larger vehicle is necessary to complete the objectives of this on-site support/maintenance trip. There will also be a medical staff of nurses hired for this project in Maui who will require transportation that will be helping with the sample collection. The purchases of water bottles and 9V batteries were essential for the successful execution of our data collection sessions, particularly given the scale and conditions of our work. Water Bottles: During sample collection, which often takes place outdoors in temperatures reaching 85F or higher, hydration is critical to participant comfort and safety. With approximately 100 participants per session, many arriving without water, providing bottled water ensures they can remain hydrated while participating in the study. Transporting water from Oahu to Maui is both logistically impractical and costly, making local purchase the only feasible option. 9V Batteries for iStat Machines: The 9V batteries are a critical supply for powering our iStat machines, which play a pivotal role in the study. The iStat machines are portable blood analysis devices used for on-site testing, enabling immediate results for Chem 8 and CG4 panels. These tests measure critical blood parameters such as electrolytes, glucose, blood gases, and hematocrit, which is needed for data collection.	A	T649546	1,140.05	04/29/25

UOH 100	113564	N	UH Campus Services	Auditorium Fee for "Know Your Rights" event held on 3/18/25 at Busad A101. This outreach event aligns with the MauiWES mission by fostering community-based engagement—an essential pillar in building a resilient health model. By partnering with local organizations to reach the Hispanic community, the event enhances inclusivity in research participation, ensuring that biomarker and socioeconomic data reflect diverse populations. This strengthens long-term relationships necessary for collecting high-quality data and enables the development of more accurate, culturally responsive preventative strategies at the individual and community levels.	A	IDO 077032	10.00	06/17/25
UOH 100	113564	N	UH Campus Services	UHERO - Mexican Consulate (F7290) event held on Wed., Nov. 6, 2024 in CC Dining Room 203C. The Mexican Consulate event directly supports the MauiWES mission by facilitating culturally tailored community engagement, a core element of community-based multidisciplinary research. Partnering with the Consulate enables MauiWES to reach underserved Hispanic populations, helping to ensure that biomarker and socioeconomic data collection reflects the full diversity of the community. This inclusive approach strengthens the accuracy and relevance of individual-level risk forecasting and enhances the development of effective, culturally informed preventative health strategies. The event also builds trust and awareness, encouraging broader participation in the MauiWES study and supporting the creation of a resilient, community-driven health model. UOH 100	113564	N	Ruben Juarez	Medical supplies purchased by Dr. Ruben Juarez from vendors - Zymo, McKesson, Henry Schein, Fisher, and VWR for State of HI Maui Wildfires project, MA 1201105. The health economic research related to the Maui wildfires requires a variety of specialized medical supplies, each sourced from different vendors based on availability, pricing, and specific research needs. Due to the nature of the study, which involves analyzing biological samples and other health-related data, it was necessary to procure items from multiple suppliers to ensure the highest quality and compatibility with research protocols. Each vendor was selected based on the specific supplies they specialize in, ensuring the research team could obtain the necessary materials as efficiently as possible. Given the urgency of the study and the impact on the affected communities, sourcing from multiple vendors was the most practical approach to obtaining the required items without delays. UOH 100	113564	N	Ruben Juarez	Dr. Juarez will be participating at the Roots Reborn Focus Group meeting on Tuesday June 3, 2025. This workshop offers a valuable opportunity for the MauiWES (Maui Wildfire Exposure Study) team to advance its mission of using Spanish community-based, multidisciplinary research to promote prevention and establish resilient health models. In summary, this meeting will allow Dr. Juarez to collaborate with the community on their experiences and share important insights into wildfire health impacts, the use of health registries, and disaster preparedness, all of which align directly with its mission to improve health outcomes through community-based, prevention-focused research. The event also offers valuable opportunities for collaboration and knowledge-sharing to further MauiWES's goals specifically to the Spanish community. Traveler will not claim lodging as it will be same day trip. Traveler is requesting for reimbursement on economic roundtrip airfare and potentially any ground transportation expenses. Traveler will be paid per diem of $20 for same day travel as stated in the Federal Allowable Rate for Maui.	A	T652797	208.97	07/11/25
UOH 100	113564	N	Ruben Juarez	Councilmember Shane Sinenci has requested the attendance of Dr. Juarez at the upcoming Water Authority, Social Services, and Parks Committee meeting on July 21, 2025, at 9:00 a.m. to present and discuss the updated report to legislators. This meeting provides a critical opportunity to inform key decision-makers, clarify findings, and address questions that may influence policy or funding related to MauiWES work. In-person participation by Dr. Juarez ensures he can represent the project accurately, engage directly with the Committee, and support transparency and collaboration with County leadership. Dr. Juarez will be requesting reimbursement on economic round-trip airfare, ground transportation expenses and parking at HNL. He will not claim lodging as it will be same day trip. Dr. Juarez paid for Dr. Maunakea's airfare (T653613) and was reimbursed for the amount. Both attended the meeting to present together. Traveler will be paid per diem of $30 for same day travel as stated in the Federal Allowable Rate for Maui.	A	T653612	291.59	07/24/25

UOH 100	113564	N	Fisher Scientific Cloudflare DigitalOcean	Pcard charges for project supplies and materials from Fisher Scientific, Cloudflare (for website security, Digitalocean (secure VPN Service)	A	PCDO 53119	2,200.99	08/13/25
UOH 100	113564	N	Fisher Hawaii	Two storage containers to be delivered and installed/assembled on Maui for the MWes project to store tens of thousands of dollars of equipment at the base located in Wailuku Health Center , 121 Mahalani St, Wailuku, HI 96793, USA. The equipment needs to be safe. The strategic shift to reduce travel for the MauiWES study from weekly to once-monthly necessitates a robust, secure home base in Wailuku, a critical pivot demanding unwavering commitment. It is a fundamental requirement to ensure the study's integrity to house the specialized equipment and irreplaceable laboratory supplies vital for both the research and participant follow-up sessions with these two secure storage containers. These containers will serve as the bedrock of our operational security, safeguarding the substantial financial investment and, more importantly, the invaluable data collected from the Maui community.	A	PO 299406	3,000.56	08/13/25
UOH 100	113564	N	T-Mobile	Two (2) cellphone/mobile device hot spots for MauiWES team to conduct outreach and conduct follow-up outreach to the Maui community. The current location does not have internet. The team requires these to connect to the Internet and utilize technologies that require the Internet to ensure the project can move forward properly e.g. Qualtrics, OpenPhone, tablets etc.	A	PO 302066	52.20	08/08/25
UOH 100	113564	N	Pacific Media Group	Radio advertisements are needed to promote the Maui wildfire health survey because they offer a direct and accessible way to reach a broad audience, including those in remote or underserved areas with limited internet access for July-August 2025.	A	PO 305540	4,998.95	08/12/25
UOH 100	113564	N	Ruben Juarez	Dr. Juarez will be meeting with Blake the videographer for MauiWES on Tuesday June 10, 2025. This meeting and filming is valuable opportunity for the MauiWES (Maui Wildfire Exposure Study) team to provide the results of the Maui report which will advance its mission of helping the community, and multidisciplinary research to promote prevention and establish resilient health models. In summary, this meeting will allow Dr. Juarez to collaborate with the community on their experiences and share important insights into wildfire health impacts, the use of health registries, and disaster preparedness, all of which align directly with its mission to improve health outcomes through community-based, prevention-focused research. The event also offers valuable opportunities for collaboration and knowledge-sharing to further MauiWES's goals specifically to the Spanish community.	A	T652898	252.91	08/27/25

UOH 100	113564	N	Alika Maunakea	The Maui Economic Development Board has requested the attendance of Dr. Maunakea at the upcoming Wellness Team Committee meeting on October 15, 2025 at 4:30 pm to 7:00 pm at the MACC to listen in on comprehensive package of RHTF ideas. The meeting directly supports the Maui Wildfire Exposure Study (MauiWES) mission to advance community-based recovery, health promotion, and resilience following the Maui wildfires. By attending, the PI can engage with cross-sector committees including the Wellness Committees presentation on the Community Health Center (CHC) model to ensure that emerging health strategies align with ongoing MauiWES efforts to assess community health impacts and strengthen local health systems. Participation fosters collaboration with community partners and decision-makers, helping translate MauiWES findings into practical frameworks for long-term community wellness and preparedness, regardless of future funding availability. Traveler will be paid per diem of $30 for same day travel as stated in the Federal Allowable Rate for Maui.	A	T655890	30.00	10/31/25

UOH 100	113564	N	Alika Maunakea	Dr. Maunakea is scheduled to attend the 2025 Maui Strong Mental Health Response Coordination Convening on Wednesday, October 1, 2025, at the UHMC-Pilina Event Center. The convening will serve as an important platform for stakeholders to review and provide feedback on the Hawai'i Mental Health and Well-Being Framework: Trauma-Informed Care Recommendations for Disasters and Traumatic Events. Participation in this meeting directly supports the MauiWES (Maui Wildfire Exposure Study) mission by advancing collaboration, integrating disaster response lessons learned, and strengthening prevention-focused, community-based research efforts. Attendance will enable Dr. Maunakea to represent MauiWES in discussions that are central to wildfire recovery, disaster preparedness, and mental health resiliency, ensuring alignment with ongoing efforts to establish a resilient health model for impacted communities. UOH 100	113564	N	Ruben Juarez	Traveler, Dr. Ruben Juarez will travel to Maui to assist with the Maui Wildfire Exposure Study (MauiWES) Collection Event at the Wailuku Health Center (121 Mahalani St, Wailuku, HI 96793) from 10/25/25 - 10/26/25. The purpose of the visit is to collect a range of biometric samples blood, urine, buccal swabs, saliva, and spirometry data to assess the health impacts of recent wildfire exposure on Maui residents. This data is essential to understand the long-term health effects of the wildfires and requires specialized collection protocols to ensure accuracy and safety. Traveler will assist with operating the specific equipment/machines and tools needed for precise sample collection to ensure smooth and efficient operations.	A	T656042	1,076.72	11/17/25
UOH 100	113564	N	Alika Maunakea	Dr. Maunakea has been invited to attend the Hawai'i Community Foundation's Maui Strong Fund Grantee Gathering on November 3, 2025, at the Maui Arts & Culture Center between the times of 10 am - 3 pm which will provide an important opportunity for the MauiWES team to engage with community partners involved in wildfire recovery and resilience efforts. Participation aligns with MauiWES' mission to advance community-based, multidisciplinary research that informs resilient health models and preventative strategies. Insights from this gathering will strengthen MauiWES' understanding of community recovery needs and enhance collaboration toward long-term health and disaster preparedness across Maui.	A	T656481	249.96	11/14/25
UOH 100	113564	N	Graduate Research Assistant	Traveler will be assisting with the Maui Wildfire Exposure Study (MauiWES) Collection Event at the Wailuku Health Center(121 Mahalani St, Wailuku, HI 96793) from 10/25/25 - 10/26/25.
