# A BILL FOR AN ACT

RELATING TO LUNG CANCER SCREENING.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1        SECTION 1. The legislature finds that, according to the  
2        American Lung Association, lung cancer is the leading cause of  
3        cancer death in the State, with the disease disproportionately  
4        affecting Asian Americans, Native Hawaiians, and other Pacific  
5        Islanders. The legislature additionally finds that early stage  
6        diagnosis through annual low-dose computed tomography screening  
7        increases survival rates by detecting and treating the cancer  
8        early.

9        Accordingly, the purpose of this Act is to:

10       (1) Require the department of health to develop no later  
11       than December 31, 2026, standardized educational
