# A BILL FOR AN ACT

RELATING TO ECONOMIC DEVELOPMENT.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1       SECTION 1. The legislature finds that the State has  
2 prioritized climate change mitigation and sustainable tourism  
3 through Act 96, Session Laws of Hawaii 2025 (Act 96). Act 96  
4 enacted section 37-79, Hawaii Revised Statutes, which requires  
5 that additional general fund revenues associated with increased  
6 transient accommodations tax collections be requested in the  
7 executive budget and be expended equally across eligible  
8 projects that:

9       (1) Protect, manage, and restore the State's natural  
10 resources, including native forests, native plants and  
11 animals, aquatic resources, coastal lands, and  
12 freshwater resources;

13       (2) Increase the resilience of structures and  
14 infrastructure to natural and climate-related  
15 disasters, such as hurricanes and sea level rise, and  
16 perform hazard mitigation activities, such as wildfire  
17 and flood mitigation; and

(3) Improve the visitor experience, mitigate the impacts of tourism on the natural environment, ensure that the State's natural resources are maintained for future residents and visitors, and support destination management, such as park improvements and beach improvement, nourishment, and maintenance projects.

The legislature further finds that the department of Hawaiian home lands manages numerous projects that meet the criteria established by Act 96; however, many of these projects lack sufficient funding. Appropriating funds to support qualifying projects will protect the interests of beneficiaries of the Hawaiian Homes Commission Act, 1920, as amended, and advance State policy.

Accordingly, the purpose of this Act is to appropriate funds for department of Hawaiian home land projects that meet the criteria established in Act 96 but may not be included in the executive budget request.

SECTION 2. There is appropriated out of the general revenues of the State of Hawaii the sum of \$ or so much thereof as may be necessary for fiscal year 2026-2027 for the following projects of the department of Hawaiian home lands:
