## A BILL FOR AN ACT

RELATING TO SEARCH AND RESCUE.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1 SECTION 1. This Act shall be known and may be cited as the  
2 "Hawaii State Search and Rescue Coordinator Act".

3 SECTION 2. The legislature finds that the State's unique  
4 geographic conditions, including seven hundred fifty miles of  
5 coastline and 3,800,000 acres of undeveloped property, pose  
6 significant challenges for search and rescue (SAR) operations.

7 The legislature further finds that the State is among the  
8 highest in the nation for the rate of missing persons, with  
9 recent data highlighting a lack of funding, tools, training, and  
10 technology for statewide search and rescue operations that  
11 hinder responses and compromise outcomes. The foregoing is  
12 compounded by the current fragmentation of search and rescue  
13 efforts in the State across over a dozen different agencies and  
14 jurisdictions. The agencies lack standardized protocols, as  
15 well as a single point of contact who provides daily centralized  
16 oversight, administrative accountability, and the inter-agency  
17 communication and coordination critical to the success of search

1 and rescue operations, including missing person investigations.  
2 The legislature finds that this inefficient, decentralized, and  
3 reactive model delays emergency response efforts among county,  
4 state, and federal partners; endangers the health and safety of  
5 residents, visitors, and first responders; degrades the  
6 environment; and unduly burdens the state economy.

7 The legislature finds that other states with significant  
8 tourism industries, including California, Florida, New York,  
9 Utah, and Wyoming, treat comprehensive safety as a fundamental  
10 component of their state infrastructure. State-level  
11 coordination and oversight of search and rescue operations allow  
12 these states to manage reimbursement funds and insurance  
13 programs efficiently, capture revenue for reinvestment in their  
14 respective offices, and provide a unified search and rescue  
15 response across their diverse geographies. Conversely, the  
16 State's current fragmentation and fiscally inefficient search  
17 and rescue program create a substantial systemic breakdown in  
18 the emergency response infrastructure that risks life-  
19 threatening consequences.

20 The legislature recognizes that the establishment of an  
21 office of the state search and rescue coordinator would install

1 a centralized, proactive authority for search and rescue  
2 operations; foster unified communication and collaboration among  
3 all participating federal, state, and county agencies and  
4 volunteer organizations; provide adequate training and resources  
5 to improve search and rescue outcomes and reduce costs; optimize  
6 resource allocation and deployment; and enhance public safety  
7 and fiscal efficiency through streamlined processes. A state  
8 search and rescue coordinator would also reduce the aggregate  
9 burden on the State caused by the current fragmentation of  
10 search and rescue programs into multiple departments and  
11 jurisdictions who may respond redundantly to the same emergency.  
12 The legislature believes that the newly established office of  
13 the state search and rescue coordinator can achieve a self-  
14 sustaining level of operational efficiency and long-term cost  
15 avoidance by leveraging data to decrease incident frequency, by  
16 identifying opportunities for federal and private reimbursement,  
17 and by reinvesting tax revenue from the state's tourism-based  
18 industry into the state's safety infrastructure.

19 Accordingly, the purpose of this Act is to improve the  
20 efficiency, training, and operations of the state's search and  
21 rescue operations, and thereby enhance public and environmental

1 safety, fiscal efficiency, economic resilience, by establishing  
2 the office of the state search and rescue coordinator within the  
3 office of the governor.

4 SECTION 3. The Hawaii Revised Statutes is amended by  
5 adding a new chapter to be appropriately designated and to read  
6 as follows:

7 **"CHAPTER**

8 **SEARCH AND RESCUE**

9 **S -1 Definitions.** As used in this chapter:

10 "Coordinator" means the state search and rescue  
11 coordinator.

12 "Office" means the office of the state search and rescue  
13 coordinator.

14 "Participating agencies" means state and county  
15 organizations, designated pursuant to this chapter, that carry  
16 out search and rescue functions in coordination with federal and  
17 volunteer search and rescue organizations.

18 "Search and rescue operations" means any coordinated effort  
19 to locate, assist, or recover individuals in distress or danger,  
20 including but not limited to:

21 (1) Missing person searches;

- 1        (2) Wilderness rescue operations;
- 2        (3) Urban search and rescue; and
- 3        (4) Maritime and aeronautical rescue operations.

4 5 -2 Office of the state search and rescue coordinator;

5   **established.** (a) There is established the office of the state  
6    search and rescue coordinator, within the office of the governor  
7    for administrative purposes. The office shall be headed by a  
8    state search and rescue coordinator, who shall be hired by and  
9    report directly to the governor. The coordinator may hire  
10    staff, as necessary, without regard to chapter 76.

11 (b) The office shall oversee all statewide search and  
12 rescue operations, including coordination among participating  
13 agencies.

-3 State search and rescue coordinator; powers and

**15 duties.** The state search and rescue coordinator shall:

16 (1) Develop and maintain a statewide search and rescue  
17 plan, ensuring compliance with federal guidelines;  
18 (2) Serve as the primary point of contact for all  
19 statewide search and rescue operations;  
20 (3) Coordinate search and rescue operations involving  
21 participating agencies;

- 1       (4) Oversee the training, certification, and readiness of
- 2                    search and rescue personnel statewide;
- 3       (5) Manage the allocation and deployment of resources for
- 4                    search and rescue operations, including mutual aid
- 5                    requests;
- 6       (6) Establish and implement interagency communication
- 7                    protocols to improve coordination and efficiency
- 8                    during search and rescue operations;
- 9       (7) Administer the search and rescue special fund,
- 10                   pursuant to this chapter, to support operations,
- 11                   training, and public education initiatives;
- 12       (8) Collect and maintain data on search and rescue
- 13                   incidents, outcomes, and expenditures within the State
- 14                   and make the data available to the public as permitted
- 15                   by law;
- 16       (9) Promote public awareness and education initiatives to
- 17                   reduce the need for search and rescue operations and
- 18                   to improve public safety;
- 19       (10) Adopt rules pursuant to chapter 91 and propose updates
- 20                   to statewide search and rescue policies and

1           procedures, subject to approval by the office of the  
2           governor;

3       (11) Ensure that all search and rescue operations conducted  
4           within the State are executed in accordance with  
5           applicable federal, state, and county laws,  
6           regulations, rules, and ordinances;

7       (12) Submit an annual report to the legislature no later  
8           than sixty days prior to the convening of each regular  
9           session, that includes:

10      (A) A summary of all search and rescue operations  
11           conducted during the reporting year, including:  
12            (i) The number and types of incidents;  
13            (ii) The agencies and organizations involved;  
14            (iii) The outcomes of the operations; and  
15            (iv) Any challenges encountered;

16      (B) An overview of training programs and  
17           certification activities, including participation  
18           rates and notable achievements;

19      (C) A detailed accounting of expenditures from the  
20           search and rescue special fund, including:

1 (C) Use of technology in search and rescue  
2 operations, including:  
3 (i) Cell phone forensics;  
4 (ii) Drone operations; and  
5 (iii) Geographic information systems;  
6 (D) Mass casualty and disaster response protocols;  
7 (E) Search and rescue coordination under an incident  
8 command system; and  
9 (F) Federal compliance standards for search and  
10 rescue operations;  
11 (14) Conduct regular statewide training exercises to ensure  
12 operational readiness and interagency coordination;  
13 and  
14 (15) Periodically review and update training programs to  
15 reflect advancements in search and rescue technology  
16 and methodologies.

§ -4 Participation in training programs. (a) All

18 participating agencies designated pursuant to section -5  
19 shall ensure the completion of mandatory training and the  
20 maintenance of active certifications for any of their personnel  
21 involved with search and rescue operations.

4           §    **-5 Participating agencies.** (a) Under the direction  
5    of the coordinator, the following agencies shall participate in  
6    search and rescue operations pursuant to this chapter:

7 (1) The department of defense, including the Hawaii  
8 emergency management agency;  
9 (2) The department of land and natural resources;  
10 (3) The department of the attorney general, including the  
11 missing child center-Hawaii;  
12 (4) The department of law enforcement;  
13 (5) Each county fire department;  
14 (6) Each county police department; and  
15 (7) Each country emergency services department;  
16 in coordination with the United States Coast Guard, the Civil  
17 Air Patrol, the Federal Emergency Management Agency, and  
18 volunteer search and rescue teams.

**19** (b) Participating agencies shall:

20 (1) Designate a liaison officer to serve as the primary  
21 point of contact to the coordinator;

- 1       (2) Provide regular updates on search and rescue
- 2               operations, related activities, resources, and
- 3               capabilities;
- 4       (3) Participate in statewide search and rescue training
- 5               and planning initiatives; and
- 6       (4) Comply with policies and protocols established by the
- 7               coordinator.

8       (c) Volunteer teams shall be encouraged to participate in

9               training and planning initiatives and operate under the

10          direction of the coordinator.

11       **§ -6 Search and rescue special fund.** (a) There is

12          established in the state treasury a search and rescue special

13          fund, into which shall be deposited:

- 14       (1) Moneys appropriated to the fund by the legislature;
- 15       (2) Federal grants designated for search and rescue
- 16               operations and related activities;
- 17       (3) Private donations and charitable contributions; and
- 18       (4) Any other sources of revenue permitted by law.

19       (b) Pursuant to applicable state law, moneys in the search

20          and rescue special fund shall be used, administered, and

21          approved by the coordinator for:

1       (1) Operational and administrative expenses of the office;

2       (2) Procurement of tools, equipment, and technology

3                    necessary for search and rescue operations and related

4                    activities;

5       (3) Development and implementation of training and

6                    certification programs;

7       (4) Support for interagency coordination and communication

8                    systems; and

9       (5) Public outreach and education efforts aimed at

10                   reducing the need for search and rescue operations.

11                   (c) The coordinator shall maintain transparent financial

12                   records of all special fund expenditures to be included in the

13                   annual report to the legislature.

14 SECTION 4. There is appropriated out of the general  
15 revenues of the State of Hawaii the sum of or so much  
16 thereof as may be necessary for fiscal year 2026-2027 to be  
17 deposited into the search and rescue fund.

18 SECTION 5. There is appropriated out of the search and  
19 rescue special fund the sum of \$ or so much thereof as  
20 may be necessary for fiscal year 2026-2027 for expenses of the

1 office of the state search and rescue coordinator pursuant to  
2 this Act.

3 The sum appropriated shall be expended by the office of the  
4 state search and rescue coordinator for the purposes of this  
5 Act.

6 SECTION 6. There is appropriated out of the general  
7 revenues of the State of Hawaii the sum of \$ or so  
8 much thereof as may be necessary for fiscal year 2026-2027 for  
9 the establishment of the office of the state search and rescue  
10 coordinator pursuant to this Act.

11 The sum appropriated shall be expended by the office of the  
12 governor for the purposes of this Act.

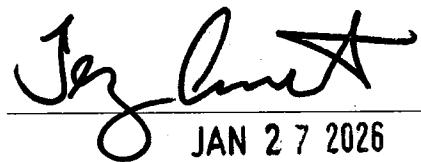

13 SECTION 7. If any provision of this Act, or the  
14 application thereof to any person or circumstance, is held  
15 invalid, the invalidity does not affect other provisions or  
16 applications of the Act that can be given effect without the  
17 invalid provision or application, and to this end the provisions  
18 of this Act are severable.

1 SECTION 8. This Act shall take effect on July 1, 2026;  
2 provided that the state search and rescue coordinator pursuant  
3 to section 3 shall be appointed no later than January 1, 2027.
