

JAN 23 2026

A BILL FOR AN ACT

RELATING TO PESTICIDE BUFFER ZONES.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. This Act shall be known and may be cited as the
2 "Senior Safe Zone Act".

3 SECTION 2. The legislature finds that older adults are
4 especially vulnerable to the drift from toxic pesticides due to
5 the slower processing of chemicals within their bodies. Chronic
6 exposure to pesticidal toxins has been linked to cancer,
7 Parkinson's disease, and dementia, and may shorten lifespans.

8 Accordingly, the purpose of this Act is to establish buffer
9 zones for pesticide use around elderly health care facilities,
10 with exemptions for whole structure fumigation and invasive
11 species control, to give our kupuna a healthier environment,
12 reduce the chances for illness, and provide them with more
13 quality years with their families.

14 SECTION 3. Section 149A-28, Hawaii Revised Statutes, is
15 amended to read as follows:

16 "~~§~~**§149A-28**~~§~~ **Buffer zones.** (a) Beginning January 1,
17 2019, no person shall apply a restricted use pesticide on or

1 within one hundred feet of a school property during normal
2 school hours; provided that this section shall not apply to
3 whole structure fumigation; provided further that if this
4 section is determined to conflict with any pesticide application
5 information listed on the pesticide label, the more restrictive
6 provision shall apply.

7 (b) Beginning January 1, 2027, no person shall apply a
8 restricted use pesticide on or within one-half mile of an
9 elderly health care facility; provided that this subsection
10 shall not apply to:

11 (1) Whole structure fumigation; or

12 (2) Invasive species control conducted by the department
13 of agriculture and biosecurity or by any invasive
14 species committee organized under the pacific
15 cooperative studies unit project of the university of
16 Hawaii;

17 provided further that if this subsection is determined to
18 conflict with any pesticide application information listed on
19 the pesticide label, the more restrictive provision shall apply.

20 For the purposes of this subsection, "elderly health care
21 facility" means any licensed hospital, institution, place, or

1 building, or portion thereof, private or public, other than
2 federal facilities or services, whether organized for profit or
3 not, used, operated, or designed to provide medical diagnosis,
4 treatment, nursing, rehabilitative, or preventive care to any
5 person or persons aged sixty-two or older."

6 SECTION 4. Statutory material to be repealed is bracketed
7 and stricken. New statutory material is underscored.

8 SECTION 5. This Act shall take effect upon its approval.
9

INTRODUCED BY: Mike Gabbard

S.B. NO. 2713

Report Title:

Restricted Use Pesticides; Elderly Health Care Facilities;
Buffer Zone; Exemptions; Invasive Species Control

Description:

Beginning 1/1/2027, prohibits the application of restricted use pesticides within a half-mile radius of elderly health care facilities, with exemptions for whole structure fumigation and invasive species control.
