A BILL FOR AN ACT

RELATING TO IRRIGATION SYSTEMS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that irrigation systems
2 are vital to the State's economy as they support agricultural
3 production and enable related economic activities, and support
4 recreational activities in many areas of the State. The
5 legislature further finds that stewardship of the natural
6 resources, land, water, and ecosystems of the State is
7 imperative. The State's economic burden of environmental
8 protection inaction will far exceed the cost of proactive
9 investment in freshwater resource mitigation and adaptation
10 strategies, and the loss of biodiversity in the State
11 simultaneously threatens the State's economic stability and
12 environmental vitality.

13 The legislature additionally finds that the department of
14 taxation has projected an increase in general funds to be
15 designated for climate conservation and environmental
16 stewardship initiatives and developments. Investing in projects
17 specifically designed for freshwater water resource conservation

1 is vital to the stability of the State. The legislature
2 believes that meaningful steps must be taken to strengthen the
3 State's environmental resilience and community prosperity;
4 therefore, the State must invest in environmental developments
5 that prioritize sustainable land use practices.

6 The purpose of this Act is to appropriate funds to the
7 department of agriculture and biosecurity, department of land
8 and natural resources, and the agribusiness development
9 corporation to acquire, repair, and maintain irrigation systems
10 in the State to preserve the systems for public access and the
11 agriculture industry.

12 SECTION 2. There is appropriated out of the general
13 revenues of the State of Hawaii the sum of \$31,500,000 or so
14 much thereof as may be necessary for fiscal year 2026-2027 to
15 the department of agriculture and biosecurity to acquire,
16 maintain, and repair irrigation systems in the State.

17 The sum appropriated shall be expended by the department of
18 agriculture and biosecurity for the purposes of this Act.

19 SECTION 3. There is appropriated out of the general
20 revenues of the State of Hawaii the sum of \$14,000,000 or so
21 much thereof as may be necessary for fiscal year 2026-2027 to

1 the department of land and natural resources to acquire,
2 maintain, and repair irrigation systems in the State.

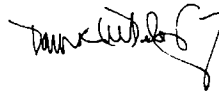

3 The sum appropriated shall be expended by the department of
4 land and natural resources for the purposes of this Act.

5 SECTION 4. There is appropriated out of the general
6 revenues of the State of Hawaii the sum of \$750,000 or so much
7 thereof as may be necessary for fiscal year 2026-2027 to the
8 agribusiness development corporation to acquire, maintain, and
9 repair irrigation systems in the State.

10 The sum appropriated shall be expended by the agribusiness
11 development corporation for the purposes of this Act.

12 SECTION 5. This Act shall take effect on July 1, 2026.

13 INTRODUCED BY: _____

S.B. NO. 2800

Report Title:

DAB; DLNR; ADC; Irrigation Systems; Appropriation

Description:

Appropriates funds to the Department of Agriculture and Biosecurity, Department of Land and Natural Resources, and the Agribusiness Development Corporation to acquire, repair, and maintain irrigation systems in the State.
