# A BILL FOR AN ACT

RELATING TO PERMITTING.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1       SECTION 1. The legislature finds that the Simplifying  
2       Permitting for Enhanced Economic Development (SPEED) task force  
3       was established pursuant to Act 133, Session Laws of Hawaii  
4       2025. The SPEED task force brought together various state and  
5       county agencies and stakeholders to address issues related to  
6       obtaining permits for housing, infrastructure, and other  
7       projects. The legislature further finds that the SPEED task  
8       force is responsible for identifying actions taken, challenges  
9       encountered, and legislative measures needed to facilitate,  
10      expedite, and coordinate state and intergovernmental permitting  
11      processes.

12      In its initial phase, the SPEED task force split into three  
13      permitted interaction groups, each focused on a specific, high-  
14      impact segment of the permitting system. The SPEED task force  
15      then submitted to the legislature a December 2025 final report  
16      of the permitted interaction groups, representing a combined  
17      report of the three permitted interaction groups, which outlined

1 findings regarding existing actions and persistent challenges  
2 and presented initial recommendations for legislative and  
3 administrative measures to improve permitting processes  
4 statewide.

5       The December 2025 final report identifies lengthy waiting  
6 times as a common issue in the permitting process and finds that  
7 applicants, staff, and the process itself share responsibility  
8 for these delays. However, a major delay in the process occurs  
9 before state and county personnel can even begin their  
10 substantive technical review, in the form of incomplete or  
11 incorrect submissions, misrouted applications, and poor quality  
12 plans. The final report suggests that a digital system or  
13 intake portal could be used to prevent the submission of  
14 incomplete applications and standardize data across  
15 jurisdictions. The legislature additionally finds that some  
16 counties have already begun to implement artificial intelligence  
17 tools as part of the application screening process to reduce  
18 repetitive tasks for staff while preserving professional  
19 judgement.

20       The final report also notes that counties currently use  
21 incompatible data standards to represent permit status, key

1 dates, valuations, and categories, which can lead to confusion  
2 amongst contractors working in more than one county and degrade  
3 application quality. A statewide platform that ensures  
4 consistent data, shared metrics, and public-facing information  
5 could therefore help ensure a more cohesive permitting process  
6 across jurisdictions.

7 Accordingly, the purpose of this Act is to require the  
8 department of business, economic development, and tourism to  
9 develop a statewide permitting intake platform.

10 SECTION 2. The department of business, economic  
11 development, and tourism shall develop a statewide permitting  
12 intake platform. The statewide permitting intake platform  
13 shall:

- 14 (1) Utilize artificial intelligence to support the permit  
15 intake, routing, and review process;
- 16 (2) Be shared, or at minimum interoperable, amongst  
17 counties and state permitting agencies;
- 18 (3) Screen applications for completeness, missing  
19 documentation, and inconsistencies;
- 20 (4) Enforce required fields at intake;
- 21 (5) Validate basic parcel and zoning information;

(6) Route applications concurrently to all relevant agencies;

(7) Offer guidance to applicants through an applicant-facing chat and frequently asked questions resources; and

(8) Preserve the use of in-person assistance and phone support and ensure that any use of automation or artificial intelligence enhances, rather than replaces, human service.

SECTION 3. There is appropriated out of the general revenues of the State of Hawaii the sum of \$50,000 or so much thereof as may be necessary for fiscal year 2026-2027 for the department of business, economic development, and tourism to develop a statewide permitting intake platform pursuant to section 2 of this Act; provided that no funds shall be made available under this Act unless each county provides matching funds in the sum of \$12,500 per county.

The sum appropriated shall be expended by the department of business, economic development, and tourism for the purposes of this Act.

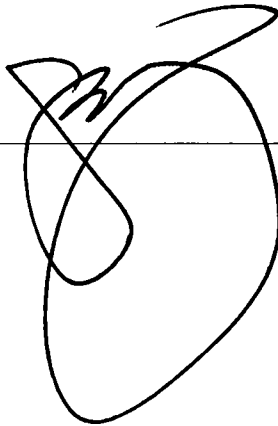

SECTION 4. This Act shall take effect on July 1, 2026.

S.B. NO. 2908

1

INTRODUCED BY:

A handwritten signature in black ink, consisting of a large, stylized 'S' or 'B' shape with a smaller loop above it, crossing the horizontal line.

# S.B. NO. 2908

**Report Title:**

DBEDT; Counties; Permitting; Statewide Permitting Intake  
Platform; Appropriation

**Description:**

Implements certain recommendations of the SPEED Task Force.  
Requires the Department of Business, Economic Development, and  
Tourism to develop a statewide permitting intake platform.  
Appropriates funds for the development of the platform, subject  
to a matching funds requirement from the counties.
