A BILL FOR AN ACT

RELATING TO PROCUREMENT.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that small businesses are
2 the lifeblood of the State's economy. Act 50, Session Laws of
3 Hawaii 2005, was enacted to promote the growth and development
4 of small businesses in Hawaii through the establishment of a
5 small business preference program as part of the procurement
6 process. Additionally, Act 213, Session Laws of Hawaii 2007,
7 approved funding for a full-time position in the state
8 procurement office with the purpose of implementing part IX of
9 the Hawaii public procurement code, relating to assistance to
10 small businesses. Unfortunately, due to funding and staffing
11 cuts in 2008, the position was never filled and later
12 eliminated. Therefore, although subchapter 9 of 3-124, Hawaii
13 Administrative Rules, the interim rules establishing the
14 procedures to implement the Hawaii small business preference
15 program went into effect in 2007, there was no dedicated
16 position to carry out those rules. In the absence of this
17 dedicated position or a small business office, the interim rules

1 failed to aid the small business community and expired in 2011.
2 Act 42, Session Laws of Hawaii 2017, then attempted to address
3 this critical need by creating a small business assistance
4 initiative. However, the three-year initiative did not receive
5 funding in its second and third years and the enabling
6 legislation sunset in 2020.

7 The legislature further finds that Act 168, Session Laws of
8 Hawaii 2022, established a five-year small business assistance
9 initiative within the state procurement office to identify,
10 quantify, and address the needs of small businesses and measure
11 and track their participation in state small business contracts.
12 The initiative consisted of a small business procurement
13 coordinator and small business office, funded through an
14 appropriation. The intent of the initiative was to create,
15 develop, and implement strategies to ensure that small
16 businesses, including businesses owned by veterans, Native
17 Hawaiians, and women, were able to effectively participate in
18 small business contracting opportunities within the State.

19 A contract with the small business office was executed in
20 2023 and the position of small business procurement coordinator
21 was filled in 2025. Since then, a statewide small business

1 database has been established and is currently being expanded; a
2 Hawaii small business office website was created to provide
3 crucial information and tools for small businesses; and two
4 statewide surveys were conducted to collect data from small
5 business and procurement staff. The initiative has also
6 conducted training workshops and outreach activities to foster
7 direct engagement and educate small business owners on
8 navigating state procurement processes. The initiative is
9 currently developing draft administrative rules for small
10 business assistance.

11 The legislature notes that previously drafted
12 administrative rules relating to the development of small
13 business contracts with the State were not effective due to
14 insufficient business metrics and data to inform the creation of
15 the rules.

16 The legislature further finds that as part of the state's
17 incremental initiatives to assist small businesses in the state
18 procurement process, the state procurement office is now
19 addressing part IX of the Hawaii public procurement code and
20 assisting self-identified small businesses to obtain state
21 contracts. The legislature recognizes the importance of

1 continuing this progress by expanding the small business
2 assistance initiative into a permanent procurement program to
3 collect and develop relevant data and information necessary for
4 small businesses to compete for and obtain small business
5 contracts and identify and resolve issues that must be addressed
6 to develop an effective small business state contracting program
7 within the state procurement process.

8 Accordingly, the purpose of this Act is to permanently
9 establish and appropriate funds for the small business
10 procurement program and small business procurement coordinator
11 position within the state procurement office.

12 SECTION 2. Chapter 103D, Hawaii Revised Statutes, is
13 amended by adding two new sections to part IX to be
14 appropriately designated and to read as follows:
