## JUSTIFICATION SHEET

DEPARTMENT: LAND AND NATURAL RESOURCES

TITLE: A BILL FOR AN ACT RELATING TO THE USE OF PUBLIC LANDS.

PURPOSE: To specify that public uses of public lands include uses by an agency either directly or through disposition, that support the agency's functions and are consistent with the uses described in section 171-10, Hawaii Revised Statutes (HRS).

MEANS: Amend section 171-1, HRS.

JUSTIFICATION: The Board of Land and Natural Resources (Board) has an obligation to ensure that the use of public lands is consistent with the public trust. As part of that obligation, the Board must balance any proposed private use against a presumption in favor of public use. However, there is no definition of what constitutes "public use".

This bill seeks to define "public uses" as any use by an agency, either directly or through a disposition, that supports the agency's functions including but not limited to the uses described in section 171-10, HRS. Such clarification is needed to dispel the assumption that public use of lands requires lands to be left vacant and undeveloped, solely for access and recreational purposes. There are numerous public uses of land that prohibit public access and recreation, such as airports, harbors, schools, hospitals, and public housing. This bill seeks to clarify that uses beyond access and recreational purposes would be consistent with the public trust.

Impact on the public: The public may be prohibited from accessing and utilizing public lands in instances where it would conflict with the managing agency's functions.

Impact on the department and other agencies:  
This bill would assist the Department and other agencies that manage public lands.

GENERAL FUND: None.

OTHER FUNDS: None.

PPBS PROGRAM  
DESIGNATION: None.

OTHER AFFECTED  
AGENCIES: State agencies that manage public lands.
