Enthusiastic individual with superior skills in working in both team-based and independent capacities. Bringing strong work ethic and excellent organizational skills to any setting. Excited to begin new challenge with successful team.

## Experience

### **Surgicare Of Hawaii - Surgical Radiologic Technologist**

*Honolulu, HI*

*05/2021 - Current*

- Evaluated images for technical quality and transmitted images to PACS system.
- Maintained sterile field and equipment during surgical procedures.
- Provided radiation protection to patients and staff during exams and surgeries.
- Assisted physicians in the operating room with patient care needs.

### **The Queen's Medical Center - Radiological Special Procedures/Urological Surgery**

*Honolulu, Hawaii*

*06/2001 - Current*

- Trains junior special procedure technicians.
- Provided excellent service and attention to doctors, hospital staff, and patients when face-to-face or through phone conversations.
- Handled all delegated tasks, including remarking the inventory of all surgical instruments, updating surgical preference cards, and subsequently training to scrub simple urologic open cases, as well as voluntary COVID-19 roadside testing.
- Earned a reputation for good attendance and hard work.
- Worked closely with team members to deliver project requirements, develop solutions, and meet deadlines.
- Completed the pre-remodeling project of the urological surgery center, resulting in meeting all JCAHO standards.

### **The Queen's Medical Center - Lead Radiographer**

*Honolulu, Hawaii*

*08/2000 - 06/2001*

- Performed diverse technical, diagnostic, and therapeutic procedures in the radiology department.
- Established and maintained proper aseptic techniques during all patient encounters.
- Applied workplace safety rules consistently to prevent immediate danger to patients, and reduce exposure to radiation.
- Performed diagnostic imaging tests and examinations to capture visual evidence of health conditions.
