TESTIMONY ON HOUSE BILL 1751
RELATING TO THE HAWAII NATIONAL GUARD STATE TUITION ASSISTANCE PROGRAM
BEFORE THE HOUSE COMMITTEE ON PUBLIC SAFETY

BY

MAJOR GENERAL STEPHEN F. LOGAN
ADJUTANT GENERAL
AND DIRECTOR OF THE HAWAII EMERGENCY MANAGEMENT AGENCY

January 30, 2026

Aloha Chair Belatti, Vice-Chair Iwamoto, and members of the committee:

The Department of Defense provides written testimony in **STRONG SUPPORT** of **HB1751**.

This bill authorizes the Adjutant General to award tuition assistance for graduate degrees at the University of Hawai'i to qualified enlisted personnel, warrant officers, and company grade officers (O-1 through O-3) in the Hawai'i National Guard (HING).

Expanding the HING State Tuition Assistance Program to include graduate-level education is important for two primary reasons. First, allowing our servicemembers to pursue graduate degrees continues to professionalize the force which is absolutely critical in this era where our Soldiers and Airman need to be smarter than they have ever been. Second, competition for talent among the military services and industry on-island is as challenging as it ever has ever been. The passage of this bill will help ensure the HING can recruit and retain the best and brightest over competing services, and that we will continue to maintain a quality force that is capable of responding to state emergencies in our communities and to defend the Nation when called.

For these reasons, I humbly ask for your support on this measure and appreciate the opportunity to provide testimony. Please feel free to call me or our Director of Legislative Affairs, Brigadier General (Retired) Neal Mitsuyoshi at 808-369-3562, neal.s.mitsuyoshi@hawaii.gov.

TESTIMONY ON HOUSE BILL 1751
RELATING TO THE HAWAII NATIONAL GUARD STATE TUITION ASSISTANCE PROGRAM
BEFORE THE HOUSE COMMITTEE ON PUBLIC SAFETY

BY

BRIGADIER GENERAL WALTER R. ROSS, JR.
DIRECTOR
JOINT STAFF, HAWAII NATIONAL GUARD

January 28, 2026

Aloha Chair Belatti, Vice-Chair Iwamoto, and Members of the Committee:

I am Brigadier General Walter Ross, Director of the Joint Staff, Hawai'i National Guard, State of Hawai'i, Department of Defense.

I am presenting this testimony in strong **SUPPORT** of HB1751.

This important legislation enables the Adjutant General of Hawai'i to extend critical tuition assistance for graduate degree programs at the University of Hawai'i to qualified enlisted personnel, warrant officers, and company-grade officers (O-1 to O-3) within the Hawai'i National Guard (HING). By investing in these dedicated HING members, the bill seeks to enhance their professional development and career opportunities.

The expansion of the HING State Tuition Assistance Program to include graduate-level education provides HING members with essential skills and knowledge necessary for effective leadership, strategic thinking, and mission readiness. The passage of this legislation will strengthen our capacity to attract top talent and retain our current personnel. This commitment to education ensures that the HING continues to cultivate a highly skilled force, prepared to support our communities and defend our nation as needed.

For these reasons, I humbly ask for your support with this measure.

Honolulu, HI 96813-2407

Aloha Chair Belatti:

The Department of Defense (DEF) provides written testimony in **STRONG SUPPORT** of **HB1751**.

This bill proposes to expand the Hawai'i National Guard's (HING) current State Tuition Assistance Program (STAP) policy to award up to 50% tuition assistance for graduate degrees for eligible Hawai'i National Guard (HING) members. The bill extends tuition assistance for graduate degrees to qualified enlisted personnel, warrant officers, and company-grade officers (Lieutenant through Captain).

There are three key points I would like to highlight for your consideration. First, extending the state tuition bill to include graduate degrees provides resources to professionalize the workforce. Second, competition for talent across the islands among the military services and the civilian sector is severe. This bill ensures the HING can compete, acquire, and retain the best and brightest to respond to emergencies in our communities and to the Nation when called to do so. Lastly, there is enough flexibility and controls within the existing program, which is currently funded at \$250,000, to implement this bill without requesting additional funding.

The following background is provided on the existing program. STAP is a critical recruiting and retention tool providing a financial resource to mitigate tuition costs for both Hawai'i Army and Air National Guard members. The current STAP reimbursement program covers 100% tuition at University of Hawai'i (UH) school system, community colleges and 4-year colleges. HING enrollment for the current Fall semester utilizing State Tuition includes 54 students attending a variety of programs at community colleges, UH Manoa, West Oahu, and UH Hilo. Top bachelor's degrees pursued through STAP include Business Administration, Public Administration and Liberal Arts degrees.

Currently, the Hawai'i Air National Guard (HIANG) Federal Tuition Assistance is only available to Active Guard Reserve (AGR) and deployed airmen; therefore, STAP is particularly significant for HIANG part-time drilling members.

Overall assessment across the country regarding STAP revealed 40 of the 54 States, Territories, and the District of Columbia offer graduate degree tuition assistance. If approved, this bill will align Hawai'i's STAP with other state programs nationwide.

We humbly ask for your support of **HB1751** and appreciate the opportunity to provide testimony. The point of contact is COL Ronald D. Hogsten, ronald.d.hogsten.mil@army.mil, 808-844-6464.

Sincerely,

Ronald D. Hogsten

HB 1751 – RELATING TO THE HAWAII NATIONAL GUARD STATE TUITION ASSISTANCE PROGRAM

Chair Belatti, Vice Chair Iwamoto, and Members of the Committee:

The University of Hawai'i **supports** HB 1751 – Relating to the Hawai'i National Guard State Tuition Assistance Program. HB 1751 would expand the Hawai'i National Guard State Tuition Assistance Program to include graduate degree programs at the University of Hawai'i (UH) for eligible members of the Hawai'i National Guard.

The University of Hawai'i (UH) strongly supports this measure, which aligns with UH's mission as the State's public system of higher education to serve Hawai'i's workforce needs, support military-affiliated students, and strengthen the State's long-term human capital.

The expansion to include graduate programs recognizes the increasing educational and professional demands placed on Guard members. Graduate education plays a critical role in preparing Guard members to meet existing and evolving workforce demands. By extending tuition assistance to graduate programs, this bill would support career advancement for Guard members while enhancing their ability to contribute meaningfully to both state and national missions.

This measure also supports workforce retention within Hawai'i. Providing Guard members with access to affordable graduate education at UH encourages them to remain in the State, apply their advanced skills locally, and continue serving Hawai'i's communities in both military and civilian capacities. In this way, HB1751 represents a strategic investment in leadership development, public service, and economic resilience.

As the sole provider of public higher education in the State, UH is committed to serving those who serve Hawai'i. Expanding the State Tuition Assistance Program to include graduate degrees strengthens UH's long-standing partnership with the Hawai'i National Guard and advances shared goals of readiness, resilience, and opportunity.

Thank you for the opportunity to testify in support of HB1751.
