

**TESTIMONY OF  
THE DEPARTMENT OF THE ATTORNEY GENERAL  
KA 'OIHANA O KA LOIO KUHINA  
THIRTY-THIRD LEGISLATURE, 2026**

---

**ON THE FOLLOWING MEASURE:**

S.C.R. NO. 81 AND S.R. NO. 71, REQUESTING THE HAWAII STATE COMMISSION ON THE STATUS OF WOMEN, IN COLLABORATION WITH THE DEPARTMENT OF THE ATTORNEY GENERAL, TO ESTABLISH A WORKING GROUP AND PROVIDE A REPORT TO THE LEGISLATURE ON WAYS TO STRENGTHEN PROTECTIONS FOR SURVIVORS OF IMAGE-BASED SEXUAL ABUSE.

**BEFORE THE:**

SENATE COMMITTEE ON JUDICIARY

**DATE:** Thursday, April 2, 2026

**TIME:** 9:45 a.m.

**LOCATION:** State Capitol, Room 016

**TESTIFIER(S):** Anne E. Lopez, Attorney General, or  
Mark S. Tom, Deputy Attorney General

---

Chair Rhoads and Members of the Committee:

The Department of the Attorney General (Department) provides the following comments.

These resolutions request that the Hawaii State Commission on the Status of Women (Commission), in collaboration with the Department: (1) convene a working group comprised of gender-based violence service providers and survivors to review statutes and policies nationwide and identify potential policy or program enhancements to protect survivors of image-based sexual abuse that could be adapted for Hawaii; and (2) submit a report of the working group's findings and recommendations, including any proposed legislation, to the Legislature no later than twenty days prior to the Regular Session of 2027.

The Department is available to assist the working group as needed, consistent with our role as legal counsel to the Commission. For example, we can help assess the legality of proposals developed by the working group and advise on appropriate legislative approaches. Determining possibilities for policy or program enhancements geared towards gender-based violence is generally outside of the Department's expertise and is a task better suited for survivors and service providers.

Additionally, a more efficient alternative to requesting a working group to review nationwide statutes and policies may be available. The Legislative Reference Bureau (LRB) is uniquely qualified to conduct the nationwide review of statutory protections for victims of image-based sexual abuse. The LRB's role includes providing impartial legal and policy research to the Legislature. Once relevant statutes and policies are identified, the Commission, service providers, and survivors could review them, and the Department could assist in refining any proposed legislation prior to introduction and throughout the legislative session.

We respectfully request that these resolutions be amended to request the LRB to conduct the desired study, or in the alternative, remove the Department from the working group.

Thank you for the opportunity to provide testimony.

### POSITION: SUPPORT

---

Imua Alliance supports SCR 81/SR 71, requesting the Hawai'i State Commission on the Status of Women, in collaboration with the Department of the Attorney General, to establish a working group and provide a report to the legislature on ways to strengthen protections for survivors of image-based sexual abuse.

Imua Alliance is a Hawai'i-based organization dedicated to ending sexual exploitation and gender violence. This resolution addresses an increasingly urgent issue: the rapid evolution of digital technology, artificial intelligence, and online platforms that are facilitating new forms of exploitation, harassment, and image-based abuse, particularly affecting youth and young adults. Hawai'i has an opportunity to take a leadership role in recognizing and responding to these emerging harms before they become even more widespread and difficult to address.

Image-based sexual abuse (IBSA), including the nonconsensual distribution of intimate images and AI-generated deepfake sexual imagery, is a growing form of exploitation that causes severe and long-lasting harm to victims. According to a 2020 study in the *Journal of the American Medical Association*, approximately 1 in 5 adults in the U.S. reported having had a nude image shared without their consent, and among those, the majority experienced significant psychological distress. A 2023 report by the Cyber Civil Rights Initiative (CCRI) found that image-based abuse survivors experience elevated rates of anxiety, depression, PTSD, and suicidality, and many face practical harms such as job loss, educational disruption, and relationship distress because images can circulate online indefinitely and are difficult to fully remove.

Artificial intelligence has further accelerated these harms. AI tools can now generate realistic deepfake images and videos, automate harassment campaigns, impersonate individuals, and create synthetic intimate images

---

without a person ever taking or sharing a photo. These technologies dramatically lower the barrier to exploitation and expand the scale at which harm can occur. Victims of AI-generated intimate imagery experience many of the same psychological and reputational harms as victims of traditional image-based abuse, including humiliation, reputational damage, fear, and long-term mental health impacts.

These harms are not distributed evenly. **Women, LGBTQ+ individuals, and young people are disproportionately targeted for online sexual exploitation and image-based abuse**, making this both a technology issue and a gender-based violence issue. Digital exploitation is increasingly recognized as part of the broader continuum of sexual violence and coercive control.

Importantly, these online harms are closely linked to youth mental health outcomes. Victims of online sexual exploitation and image-based abuse experience significantly higher rates of depression, anxiety, self-harm, and suicidal ideation. Because online content can spread rapidly and remain accessible indefinitely, victims often experience a sense that the abuse never ends, which can compound trauma and increase mental health risks.

**This resolution recognizes that these issues are evolving faster than traditional laws can keep up.** Artificial intelligence, deepfake technology, and digital exploitation tools are advancing rapidly, and policymakers across the country are beginning to examine how to protect youth, prevent exploitation, and ensure that victims have meaningful remedies.

Across the U.S., states, including our own, are increasingly considering legislation addressing AI-generated sexual imagery, online impersonation, and digital exploitation. Several states have enacted laws criminalizing deepfake pornography, and others have established civil remedies for victims of image-based abuse. Policymakers are also examining platform responsibility, removal procedures, AI disclosure requirements, and youth online safety standards.

Resolutions like this play an important role by acknowledging the scope of the problem, encouraging coordinated policy development, and signaling that Hawai'i recognizes digital exploitation and AI-facilitated abuse as serious public safety and public health issues.

With aloha,

*Kris Coffield*

President, Imua Alliance

**Position:** **SUPPORT** with **COMMENTS** of **SCR81/SR71**, REQUESTING THE HAWAII STATE COMMISSION ON THE STATUS OF WOMEN, IN COLLABORATION WITH THE DEPARTMENT OF THE ATTORNEY GENERAL, TO ESTABLISH A WORKING GROUP AND PROVIDE A REPORT TO THE LEGISLATURE ON WAYS TO STRENGTHEN PROTECTIONS FOR SURVIVORS OF IMAGE-BASED SEXUAL ABUSE.

**To:** Senator Karl Rhoads, Chair  
Senator Mike Gabbard, Vice Chair  
Members of the Senate Committee on Judiciary

**From:** Llasmin Chaine, LSW, Executive Director, Hawaii State Commission on the Status of Women

**Re:** Testimony in SUPPORT with COMMENTS of SCR81/SR71, REQUESTING THE HAWAII STATE COMMISSION ON THE STATUS OF WOMEN, IN COLLABORATION WITH THE DEPARTMENT OF THE ATTORNEY GENERAL, TO ESTABLISH A WORKING GROUP AND PROVIDE A REPORT TO THE LEGISLATURE ON WAYS TO STRENGTHEN PROTECTIONS FOR SURVIVORS OF IMAGE-BASED SEXUAL ABUSE.

**Hearing:** Thursday, April 2, 2026, 9:45 a.m.  
Conference Room 016, State Capitol

The Hawaii State Commission on the Status of Women (Commission) **supports SCR81/SR71**, establishing a working group focused on protections against image-based sexual abuse in Hawaii.

As a statewide feminist government body dedicated to advancing equality and safety for women and girls, the Commission recognizes the urgent need to address the harms caused by image-based sexual abuse. This form of abuse disproportionately affects women and girls, undermining their well-being, dignity, and participation in public life. The proposed working group aligns with our mission to catalyze positive change through advocacy, education, and collaboration.

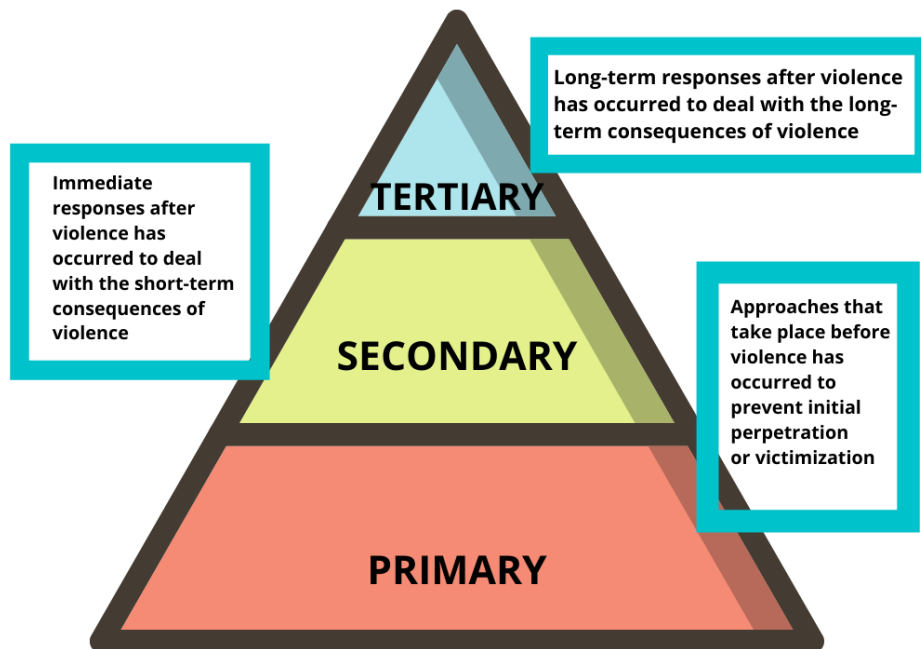

By bringing together stakeholders under the leadership of the Hawaii State Commission on the Status of Women and the Department of the Attorney General, the measure creates an opportunity for data-driven policy development and the identification of best practices. **A coordinated response will help ensure that legal protections keep pace with technology and that survivors have access to resources and support. The working group's report will also provide valuable guidance for future legislative and programmatic action.**

The Commission is not opposed to the AG's suggestion that the Legislative Reference Bureau be utilized to assist with the legal and policy research. If the Committee decides to move the measure forward, we would ask that the AG not be removed from the working group as the Commission does not have the necessary authority, expertise, social or political capital to ensure the appropriate stakeholders participate and engage in this effort.

To strengthen the effectiveness of this measure we provide the following suggested amendments for the Committee's consideration:

- The title of the resolution to be amended to include the words "PREVENTION, INTERVENTIONS, AND", in accordance with public health and sexual violence prevention best practices, to read:
  - REQUESTING THE HAWAII STATE COMMISSION ON THE STATUS OF WOMEN, IN COLLABORATION WITH THE DEPARTMENT OF THE ATTORNEY GENERAL, TO ESTABLISH A WORKING GROUP AND PROVIDE A REPORT TO THE LEGISLATURE ON WAYS TO STRENGTHEN **PREVENTION, INTERVENTIONS, AND PROTECTIONS** FOR SURVIVORS OF IMAGE-BASED SEXUAL ABUSE.

## Public Health Approach to Prevention

- The resolution's working group membership on page 2, lines 25-33 and line 35, to be amended to include: designees, county police departments, prosecuting attorney offices, gender-based violence coalitions, the Judiciary, and any other representatives with relevant knowledge or experiences that the Commission and/or the Attorney General deems necessary, similar to last session's [HCR55](#), **as diverse perspectives will be needed to inform its recommendations**, to read:

(25) of 2026, the Senate concurring, that ~~the~~ **a designee** of the Hawaii State Commission  
 (26) on the Status of Women, in collaboration with the Department of  
 (27) the Attorney General, is requested to establish a working group  
 (28) comprised of **the following members or their designees:** gender-based ~~violence service providers, and~~  
 (29) **violence service providers**, survivors of gender-based violence, **county**  
 (30) **police departments, prosecuting attorney offices, gender-based violence coalitions,**  
 (31) **the Judiciary, and any other representatives with relevant knowledge or experiences**  
 (32) **that the Hawaii State Commission on the Status of Women designee and/or**  
 (33) **the Attorney General deems necessary** to conduct a review of statutes...

(35) BE IT FURTHER RESOLVED that ~~the~~ **a designee** of the Hawaii State Commission on

- The inclusion of prevention and intervention strategies will improve public health, increase community safety and strengthen the State's response to image-based sexual abuse, adjusting the working group's and report's scope on page 2, lines 31-32 and line 39, to read:

~~(31)~~ policy or program enhancements to **prevent image-based sexual abuse,**

~~(32)~~ **intervene** and protect survivors, ~~of image-based sexual abuse~~ that can be adapted...

~~(39)~~ on ways to **prevent, intervene, and** strengthen protections for survivors of image-based

- Adjusting the working group's report submission due date, on page 2 lines 41-42, to enable sufficient time for the working group to assemble, discuss, research, review, and draft the report of its findings and recommendations and the identification of a date to dissolve the working group, to read:

~~(41)~~ to the convening of the Regular Session of ~~2028~~ **2027**; ~~and~~

~~(42)~~ **dissolving the working group on December 31, 2027**; ~~and~~

We respectfully urge this Committee to **pass SCR81/SR71 with the suggested amendments**. Thank you for this opportunity to submit testimony.

**SR-71**

Shelby Pikachu Billionaire	Testifying for Kingdom of The Hawaiian Islands & Ohana Unity Party	Support	Remotely Via Zoom

Comments:

**\*\*Aloha kakahiaka nui, Honorable Members of the Hawaii Senate.**

**\*\* My name is \*\*Master Shelby "Pikachu" Billionaire, HRM\*\*, Kingdom of The Hawaiian Islands, H.I. Chairman, Ohana Unity Party**

I submit this testimony with a heart full of the Aloha Spirit, in full accordance with **\*\*HRS 5-7.5 Aloha Spirit Law\*\***: “Aloha is the coordination of mind and heart within each person. It brings each person to the self. Each person must think and emote good thoughts and good feelings to others.” I offer my **\*\*strong, heartfelt, and unwavering support\*\*** for **\*\*Senate Resolution SR71\*\***

**— \*REQUESTING THE HAWAII STATE COMMISSION ON THE STATUS OF WOMEN, IN COLLABORATION WITH THE DEPARTMENT OF THE ATTORNEY GENERAL, TO ESTABLISH A WORKING GROUP TO STRENGTHEN PROTECTIONS FOR SURVIVORS OF IMAGE-BASED SEXUAL ABUSE\*.**

This resolution is not just timely — it is **\*\*urgently necessary\*\*** and deeply pono. Image-based sexual abuse (also known as revenge porn, nonconsensual intimate imagery, deepfake pornography, and sexual extortion) is a modern form of violence that destroys lives with a single click.

**### Why SR71 Matters - Image-based sexual abuse causes profound trauma: victims suffer severe anxiety, depression, loss of employment, damaged relationships, and sometimes even suicide. - Women and girls are disproportionately targeted — a 2019 study found that \*\*95% of all deepfake videos\*\* online are nonconsensual sexual deepfakes, with \*\*90% targeting women\*\*.**

**- Technology (AI, smartphones, social media) has made this abuse faster, easier, and more widespread, yet our laws and support systems have not kept up.**

**- Many survivors suffer in silence: a 2019 study showed that \*\*73% of victims did not seek help\*\* due to shame, fear, and lack of clear pathways to justice.**

- Native Hawaiian women, Pacific Islanders, and other marginalized communities are often hit hardest, yet they have the fewest resources. SR71 wisely calls for a working group that brings together the Hawaii State Commission on the Status of Women, the Attorney General's Office, service providers, and survivors themselves to: - Review best practices from other states,

- Identify gaps in current Hawai'i law, - Recommend stronger protections, faster remedies, and better support for survivors. This is exactly the kind of thoughtful, compassionate, and proactive step our state should take. **\*\*He ali'i ka 'āina, he kauwā ke kanaka\*\***

— The land is the chief, the people are the servants. When our people — especially our wahine and keiki — are being harmed by new forms of violence, it is our kuleana to serve and protect them. SR71 embodies true aloha by refusing to let technology outpace justice and compassion.

I strongly urge the Senate to adopt **\*\*SR71\*\*** and move this working group forward quickly. Our daughters, mothers, sisters, and friends deserve to live without fear that their most private moments can be weaponized against them forever. **\*\*E ho'omaika'i kākou\*\***

— Let us give thanks for this resolution and act with urgency to protect the vulnerable and uphold the dignity of every person in Hawai'i nei. Mahalo nui loa for your kuleana and for receiving this testimony.

**\*\*Master Shelby "Pikachu" Billionaire, HRM\*\*** Kingdom of The Hawaiian Islands, H.I.  
Chairman, Ohana Unity Party

Comments:

Aloha Chair, Vice Chair, and Members of the Committee,

I strongly support S.C.R. No. 81.

This measure addresses a growing and deeply harmful form of abuse—image-based sexual abuse—which includes the nonconsensual sharing or threat of sharing intimate images, often with devastating impacts on a person’s safety, mental health, livelihood, and relationships. As noted in the resolution, this form of abuse has evolved rapidly with technology, including artificial intelligence and deepfake tools, making it easier to perpetrate and harder for victims to seek justice.

While Hawai‘i has taken steps to criminalize such conduct, the reality is that many survivors still face significant barriers. Studies cited in the resolution indicate that a majority of survivors do not seek help, often due to stigma, fear, and the lack of clear legal pathways. This is deeply concerning and signals that our current systems are not yet sufficient to meet the needs of those harmed.

We commend this measure for taking a thoughtful and proactive approach by convening a working group that includes both service providers and survivors. This is critical. Solutions must be informed not only by law enforcement and policymakers, but also by those with lived experience and those who provide direct support services. Their ‘ike and perspectives will help ensure that any recommendations are both effective and compassionate.

Importantly, this resolution recognizes the rapidly changing technological landscape, including the rise of artificial intelligence-generated abuse. Hawai‘i has an opportunity—and a responsibility—to be forward-thinking in how we address these emerging threats. By examining best practices nationwide and adapting them for our unique communities, this working group can help position our state as a leader in protecting privacy, dignity, and safety in the digital age.

From a broader cultural and community perspective, this issue also raises serious concerns about the misuse of technology, including artificial intelligence, in ways that can exploit and misrepresent individuals without their consent. For Native Hawaiians and other indigenous communities, the unauthorized creation or manipulation of images—particularly through AI—echoes longstanding concerns about the taking and misuse of identity, likeness, and cultural expression. The harm is not only personal but collective, impacting dignity, trust, and cultural

integrity. Strengthening protections against image-based sexual abuse is therefore also aligned with protecting the rights of individuals and communities to control their own images and narratives in both physical and digital spaces.

At its core, this measure is about protecting people—especially women and vulnerable populations—from harm that can follow them indefinitely in an online world. It is about restoring a sense of control, dignity, and justice to survivors.

I support S.C.R. No. 81 because it does not rush to incomplete solutions, but instead lays the foundation for informed, inclusive, and effective policy development. This is the right approach.

Mahalo for the opportunity to provide testimony in strong support of this important measure.
