## A BILL FOR AN ACT

RELATING TO DEPOSIT BEVERAGE CONTAINER RECYCLING.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1           SECTION 1. The legislature finds that, as an island state  
2 with limited land space, Hawaii must limit waste generation or  
3 face increasing and costly reliance on off-island waste disposal  
4 and recycling management. The legislature further finds that in  
5 2005, Hawaii implemented a deposit return program for certain  
6 beverage containers that has performed better than curbside  
7 recycling programs, but whose performance and convenience have  
8 declined over time, making it difficult for many residents to  
9 redeem containers and obtain their deposit refunds.

10           The legislature also finds that well-designed deposit  
11 return systems have been proven to significantly reduce litter  
12 and packaging pollution by as much as eighty per cent. These  
13 programs achieve recycling rates between eighty and ninety per  
14 cent and produce high-quality materials that support closed-loop  
15 recycling and reduce reliance on virgin resources.

16           Accordingly, the purpose of this Act is to update the  
17 deposit return program to improve efficiency and performance,

1 reduce burdens on retailers, expand convenient redemption  
2 opportunities, and strengthen environmental and economic  
3 benefits for the State by repealing the existing deposit  
4 beverage container program and replacing it with a program  
5 administered by a recycling refund producer responsibility  
6 organization.

7 SECTION 2. Chapter 342G, Hawaii Revised Statutes, is  
8 amended by adding a new part to be appropriately designated and
