
A BILL FOR AN ACT

RELATING TO THE WORKFORCE PELL GRANT PROGRAM.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the United States
2 Congress has authorized a federal workforce Pell grant program
3 under title IV of the Higher Education Act of 1965, as amended,
4 to expand access to short-term workforce education and training
5 aligned with in-demand and high-wage occupations. The federal
6 workforce Pell grant program assigns the states a formal role in
7 identifying and approving eligible short-term workforce
8 education programs and requires coordination among state
9 workforce agencies, postsecondary institutions, and the United
10 States Department of Education.

11 The legislature further finds that effective participation
12 in the federal workforce Pell grant program requires clear state
13 definitions, a transparent authorization process, safeguards to
14 protect students and taxpayers, and secure data-sharing
15 mechanisms to meet federal performance and accountability
16 requirements. The legislature believes that Hawaii must
17 modernize its workforce credential pathways and data systems to

1 ensure that residents can access federal workforce Pell grant
2 funding and that participating programs remain eligible under
3 federal law.

4 The legislature believes that ensuring equitable access to
5 high-quality workforce training and aligning credential pathways
6 with federal standards is a matter of statewide concern.

7 The purpose of this Act is to establish a comprehensive
8 statewide framework for workforce Pell grant program
9 implementation that:

- 10 (1) Creates a formal state authorization and approval
11 process for workforce Pell-eligible programs;
- 12 (2) Defines key terms for the implementation of the
13 workforce Pell grant program, including in-demand and
14 high-wage occupations and stackable credentials;
- 15 (3) Requires stackable credential pathways within
16 participating institutions;
- 17 (4) Enables secure, privacy-protected data sharing and
18 outcomes reporting;
- 19 (5) Establishes student and consumer protections
20 consistent with federal intent; and

1 (6) Positions the State to respond efficiently to federal
2 regulations and timelines.

3 SECTION 2. The Hawaii Revised Statutes is amended by
4 adding a new chapter to be appropriately designated and to read
5 as follows:
