
HOUSE CONCURRENT RESOLUTION

URGING STATE DEPARTMENTS AND AGENCIES TO INCLUDE DEDICATED DAY CARE FACILITIES FOR ADULTS AND CHILDREN WHEN DESIGNING STATE BUILDINGS THAT WILL EMPLOY OR HOUSE TWO HUNDRED FIFTY OR MORE PERSONS.

1 WHEREAS, access to affordable childcare and elder care
2 services remains a significant challenge for working families
3 across the State; and
4

5 WHEREAS, Hawaii has some of the highest childcare costs in
6 the United States, with the average annual cost of center-based
7 infant care estimated at approximately \$22,585, and toddler care
8 averaging about \$17,925 per year; and
9

10 WHEREAS, these childcare costs place a substantial
11 financial burden on families and represent more than twenty
12 percent of the State's median household income, far exceeding
13 the United States Department of Health and Human Services
14 affordability benchmark of seven percent of family income; and
15

16 WHEREAS, Hawaii also faces a severe shortage of licensed
17 childcare providers and early childhood educators, with
18 workforce shortages estimated between twenty-five to thirty
19 percent, limiting the availability of regulated care statewide;
20 and
21

22 WHEREAS, existing licensed childcare providers in Hawaii
23 currently have the capacity to serve approximately 19,597
24 children under the age of five; however, more than fifty-six
25 thousand children under the age of five live in households where
26 all available parents work, meaning that only about one-third of
27 children needing care can be served by licensed childcare
28 providers; and
29

1 WHEREAS, limited capacity and workforce shortages have
2 resulted in long wait lists for childcare programs, with many
3 families unable to secure care for infants and toddlers; and
4

5 WHEREAS, Hawaii is also experiencing a rapidly aging
6 population, increasing the need for adult day care services that
7 provide supervision, health monitoring, meals, and social
8 engagement for older adults who have working family caregivers;
9 and
10

11 WHEREAS, the high cost of land, construction, and
12 commercial leases remains one of the greatest barriers
13 preventing childcare centers and adult day care providers from
14 expanding services across the State; and
15

16 WHEREAS, incorporating dedicated care facility spaces into
17 state buildings and public facilities will enable the State to
18 expand access to childcare and adult day care services; and
19

20 WHEREAS, the availability of day care facilities for
21 children and adults near workplaces can improve employee
22 productivity, reduce absenteeism, and support recruitment and
23 retention within the State workforce; now, therefore,
24

25 BE IT RESOLVED by the House of Representatives of the
26 Thirty-third Legislature of the State of Hawaii, Regular Session
27 of 2026, the Senate concurring, that state departments and
28 agencies are urged to include dedicated day care facilities for
29 adults and children when designing state buildings that will
30 employ or house two hundred fifty or more persons; and
31

32 BE IT FURTHER RESOLVED that this body urges state
33 departments and agencies to evaluate opportunities to establish
34 partnerships with licensed childcare and adult day care
35 providers to operate services within state facilities employing
36 or housing more than two hundred fifty persons; and
37

38 BE IT FURTHER RESOLVED that this body encourages state
39 departments and agencies responsible for facility planning and
40 capital improvement projects to consider integrating dedicated
41 spaces for licensed childcare and adult day care providers when
42 feasible; and
