# HOUSE CONCURRENT RESOLUTION

REQUESTING THE DEPARTMENT OF AGRICULTURE AND BIOSECURITY TO COLLABORATE WITH STATE AND COUNTY AGENCIES AND COMMUNITY-BASED ORGANIZATIONS TO DEVELOP A COMPREHENSIVE STATEWIDE FOOD SECURITY STRATEGY.

1           WHEREAS, according to the *State of Food Insecurity in*  
2 *Hawai'i 2024-2025* report compiled by Hawaii Foodbank and its  
3 affiliate foodbanks statewide, approximately thirty-two percent  
4 of the State's households experienced food insecurity, meaning  
5 they lacked consistent access to sufficient, nutritious, and  
6 affordable food, and more than one in five households reported  
7 "very low food security", with members skipping meals or going  
8 entire days without eating due to lack of resources; and  
9

10           WHEREAS, according to the report, among households with  
11 children, thirty-four percent experienced food insecurity, an  
12 increase from prior reporting, indicating that more than one in  
13 three families struggle to reliably feed their keiki and  
14 demonstrating a worsening trend among families with children;  
15 and  
16

17           WHEREAS, young adults, ages 18 to 29, and households  
18 relying on federal nutrition assistance were also reported to  
19 have faced particularly high rates of food insecurity; and  
20

21           WHEREAS, food insecurity disproportionately impacts certain  
22 communities in the State, who face higher rates of poverty,  
23 limited access to healthy and culturally relevant foods, and  
24 systemic barriers in both urban and rural areas; and  
25

26           WHEREAS, these populations often experience compounded  
27 challenges from geographic isolation and intergenerational  
28 inequities and are more impacted by processed foods, climate  
29 change, and economic disruptions, underscoring the need for  
30 targeted strategies that honor cultural practices, support

1 community-led food systems, and promote equitable access to  
2 nutritious and locally grown foods; and

3  
4 WHEREAS, food insecurity imposes serious consequences on  
5 health, dignity, community resilience, and long-term economic  
6 stability, including increased risk of diet-related illness,  
7 developmental and educational impairments for keiki, mental  
8 health stresses, and higher public health costs, making food  
9 security a matter of public welfare, equity, and justice; now,  
10 therefore,
