# HOUSE CONCURRENT RESOLUTION

REQUESTING THE DEPARTMENT OF LAND AND NATURAL RESOURCES TO  
IDENTIFY STATE LANDS IN EAST OAHU SUITABLE FOR THE PLANTING  
OF NATIVE HAWAIIAN TREES.

1 WHEREAS, citizen participation is a fundamental principle  
2 of democracy, and a healthy democracy depends upon the  
3 engagement of its people in civic life; and

4  
5 WHEREAS, legislators have a responsibility to listen to  
6 their constituents and remain open to ideas that arise from the  
7 community, recognizing that meaningful contributions to public  
8 policy can come from citizens of all ages; and

9  
10 WHEREAS, encouraging civic awareness and participation  
11 among young people strengthens democratic institutions and  
12 inspires the next generation of public servants; and

13  
14 WHEREAS, Shane Fung, a third-grade student at Hahaione  
15 Elementary School, who has taken an interest in public service  
16 and government, recently shared an idea to plant more native  
17 Hawaiian trees in the community; and

18  
19 WHEREAS, Shane suggested that increasing the presence of  
20 native trees could both beautify public lands and help preserve  
21 Hawaii's natural and cultural heritage; and

22  
23 WHEREAS, among the native trees suggested was the milo tree  
24 (*Thespesia populnea*), a coastal tree long valued in Hawaiian  
25 culture; and

26  
27 WHEREAS, the milo tree holds historical and cultural  
28 significance in Hawaii, having been used traditionally for  
29 'umeke, plates, and other implements due to its attractive wood  
30 and durability; and

# H.C.R. NO. 166

1  
2 WHEREAS, milo trees were historically planted around places  
3 of importance, and historical accounts note that King Kamehameha  
4 I had his residence in Waikiki surrounded by milo trees; and  
5

6 WHEREAS, the milo tree was once considered sacred, and its  
7 use was restricted in certain contexts, with some traditions  
8 indicating that the tree and its wood were reserved for Ali'i and  
9 not permitted to be used by commoners; and  
10

11 WHEREAS, planting additional milo trees and other native  
12 Hawaiian species can help restore native landscapes, support  
13 coastal ecosystems, and preserve cultural connections to the  
14 land; and  
15

16 WHEREAS, East Oahu contains areas of state-owned land that  
17 may provide opportunities for planting native trees that would  
18 benefit both the environment and the community; now, therefore,  
19

20 BE IT RESOLVED by the House of Representatives of the  
21 Thirty-third Legislature of the State of Hawaii, Regular Session  
22 of 2026, the Senate concurring, that the Department of Land and  
23 Natural Resources is requested to identify suitable state lands  
24 in East Oahu for the planting of native Hawaiian trees,  
25 including the milo tree; and  
26

27 BE IT FURTHER RESOLVED that in identifying such lands, the  
28 Department is encouraged to consider opportunities that may  
29 involve schools, community groups, and youth participants, in  
30 order to foster civic engagement and environmental stewardship;  
31 and  
32

33 BE IT FURTHER RESOLVED that the Department is requested to  
34 report its findings and recommendations, including potential  
35 locations and implementation considerations, to the Legislature  
36 no later than twenty days prior to the convening of the Regular  
37 Session of 2027; and  
38

39 BE IT FURTHER RESOLVED that certified copies of this  
40 Concurrent Resolution be transmitted to the Chairperson of the  
41 Board of Land and Natural Resources, the Director of the

# H.C.R. NO. 166

1 Department of Land and Natural Resources, and the principal of  
2 Hahaione Elementary School.
