
HOUSE RESOLUTION

REQUESTING THE DEPARTMENT OF TRANSPORTATION TO COORDINATE WITH UTILITY PROVIDERS OPERATING WITHIN STATE HIGHWAY RIGHTS-OF-WAY TO DEVELOP A COMPREHENSIVE STATEWIDE PLAN AND SCHEDULE TO ADDRESS DERELICT OR AGING UTILITY POLES AND LINES ALONG FARRINGTON HIGHWAY AND OTHER HIGH-RISK CORRIDORS.

1 WHEREAS, public safety along state highways is of paramount
2 importance, particularly in coastal, high-wind, and heavily
3 traveled corridors; and
4

5 WHEREAS, aging, damaged, or derelict utility poles and
6 overhead lines located within state highway rights-of-way may
7 pose safety hazards to motorists, pedestrians, bicyclists, and
8 nearby residents; and
9

10 WHEREAS, Farrington Highway serves as a major
11 transportation artery for the Leeward Coast of Oahu and has
12 experienced incidents involving downed or deteriorated utility
13 infrastructure, raising concerns regarding resilience, safety,
14 and emergency access; and
15

16 WHEREAS, similar conditions may exist along other high-risk
17 state highway corridors that are vulnerable to severe weather
18 events, coastal erosion, traffic impacts, or deferred
19 maintenance; and
20

21 WHEREAS, the Department of Transportation plays a critical
22 role in coordinating infrastructure planning and maintenance
23 activities within those corridors; and
24

25 WHEREAS, utility providers operate infrastructure within
26 state highway rights-of-way pursuant to permits, easements, or
27 other agreements and share responsibility for the maintenance,
28 repair, and replacement of their infrastructure; and
29

1 WHEREAS, a coordinated, data-driven, and phased statewide
2 plan to address this aging infrastructure plan could improve
3 public safety, enhance infrastructure resilience, clarify
4 maintenance responsibilities, and better align capital
5 improvement schedules among state and private stakeholders; now,
6 therefore,
7

8 BE IT RESOLVED by the House of Representatives of the
9 Thirty-third Legislature of the State of Hawaii, Regular Session
10 of 2026, that the Department of Transportation is requested to
11 coordinate with utility providers operating within state highway
12 rights-of-way to develop a comprehensive statewide plan and
13 schedule to address derelict or aging utility poles and lines
14 along Farrington Highway and other high-risk corridors; and
15

16 BE IT FURTHER RESOLVED that the Department of
17 Transportation is requested to:
18

- 19 (1) Convene relevant utility providers to conduct a
20 coordinated assessment of derelict, inactive, or aging
21 infrastructure;
22
- 23 (2) Develop a comprehensive removal, repair, or
24 remediation schedule;
25
- 26 (3) Prioritize corridors with elevated wildfire risk, high
27 traffic volumes, or proximity to residential
28 communities;
29
- 30 (4) Establish a standardized notification and coordination
31 process for unsafe or abandoned infrastructure;
32
- 33 (5) Identify funding responsibilities and cost allocation
34 mechanisms; and
35
- 36 (6) Evaluate whether existing statutes or franchise
37 agreements sufficiently define maintenance and removal
38 obligations for inactive utility infrastructure within
39 state highway rights-of-way; and
40

41 BE IT FURTHER RESOLVED that the Department of
42 Transportation is requested to submit a report detailing

1 identified infrastructure, remediation schedules, responsible
2 entities, and any statutory or regulatory barriers, including
3 any proposed legislation, to the Legislature no later than
4 twenty days prior to the convening of the Regular Session of
5 2027; and

6

7 BE IT FURTHER RESOLVED that a certified copy of this
8 Resolution be transmitted to the Director of Transportation.
