
HOUSE RESOLUTION

RECOGNIZING OPEN WATER LIFEGUARD AS FIRST RESPONDERS IN THE
STATE OF HAWAII.

1 WHEREAS, open water lifeguards perform an essential public
2 safety function by protecting countless lives from death or
3 serious injury among residents and visitors throughout the
4 State; and

5
6 WHEREAS, open water lifeguards are professionals designated
7 as Ocean Safety Officers in the counties of Kaua'i and Maui, and
8 as Water Safety Officers in the City and County of Honolulu and
9 Hawai'i County, reflecting their specialized training,
10 responsibilities, and scope of duty; and

11
12 WHEREAS, in the performance of their duties, open water
13 lifeguards routinely place themselves at significant risk to
14 their own lives and physical safety in dynamic and hazardous
15 ocean and shoreline environments; and

16
17 WHEREAS, open water lifeguards are frequently among the
18 first personnel to respond to emergencies on the State's beaches
19 or in state waters and operate alongside police officers and
20 firefighters to protect life, secure scenes, and preserve public
21 safety until additional responders arrive; and

22
23 WHEREAS, the duties of open water lifeguards extend beyond
24 ocean rescues and include responding to emergencies such as
25 cardiac arrests, traumatic injuries, and motor vehicle
26 collisions that occur on or near beaches, parks, and public
27 roadways; and

28
29 WHEREAS, many open water lifeguards are cross-trained in
30 emergency medical response, marine fire safety, law enforcement
31 support, and water rescue craft operations; and
32

1 WHEREAS, open water lifeguards undergo rigorous and
2 continuous training, including high-performance cardiopulmonary
3 resuscitation, automated external defibrillator use, advanced
4 rescue techniques, and emergency scene management; and
5

6 WHEREAS, open water lifeguards respond to emergencies by
7 attending to, treating, assisting, and transporting victims,
8 which collectively constitute the four defined duties of an
9 emergency response employee; and
10

11 WHEREAS, open water lifeguards not only protect human life
12 but also safeguard property, preserve evidence, and protect the
13 environment, which together represent the four core tenets
14 commonly used to define a first responder; and
15

16 WHEREAS, the term "first responder" is commonly defined as
17 an individual with specialized training who is among the first
18 to arrive at and provide assistance at the scene of an
19 emergency; and
20

21 WHEREAS, open water lifeguards differ fundamentally from
22 pool lifeguards due to the unpredictable and hazardous
23 environments in which they operate and the wide range of
24 emergency situations and locations to which they respond; and
25

26 WHEREAS, many other countries formally recognize lifeguards
27 as emergency responders and grant them access to programs,
28 protections, and resources afforded to first responders; now,
29 therefore,
30
