
A BILL FOR AN ACT

RELATING TO WORKFORCE DEVELOPMENT.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that education and
2 vocational training are the cornerstones of professional
3 development for students seeking job opportunities and career
4 development throughout the State. The Hawaii P-20 partnerships
5 for education advisory council and its associated members from
6 the executive office on early learning, department of education,
7 and university of Hawaii, including the university of Hawaii
8 community colleges, collaborate to improve educational pathways
9 from early childhood through higher education to imbue students
10 with vocational skills and knowledge that will prepare them for
11 careers and develop them as leaders within the community. This
12 cooperation is vital to foster economic growth and stability.

13 The legislature further finds that longstanding vacancies
14 within the state workforce have created challenges for state
15 departments seeking to fill positions with qualified candidates.
16 Accordingly, the Hawaii P-20 partnerships for education aims to
17 fulfill vocational needs for these departments. To meet these

1 goals, it is imperative that the P-20 partnerships for education
2 work closely with state departments such as the department of
3 labor and industrial relations; department of human resources
4 development; department of business, economic development, and
5 tourism; the university of Hawaii, including the university of
6 Hawaii community colleges; and department of education.

7 The legislature further finds that creating a performance
8 metric to measure the development of P-20 partnerships for
9 education programs will promote accountability in state
10 spending, ensuring that state appropriations are used
11 responsibly and efficiently toward meeting program initiatives.

12 The legislature also finds that requiring the Hawaii P-20
13 partnerships for education office within the university of
14 Hawaii to establish and implement evidence-based assessment of
15 its workforce and pathway development programs is a matter of
16 statewide concern pursuant to article X, section 6, of the
17 Hawaii State Constitution.

18 The purpose of this Act is to establish and implement
19 evidence-based performance metrics for the Hawaii P-20
20 partnerships for education to allow better evidence-based
21 assessments for its workforce and pathway development programs.

1 SECTION 2. Chapter 304A, Hawaii Revised Statutes, is
2 amended by adding a new part to be appropriately designated and
3 to read as follows:

8 (d) Funds appropriated to P-20 partnerships for education
9 may be transferred to other state departments or agencies in
10 accordance with the performance metrics and outcomes relating to

13 positions.

14 (e) No later than thirty days prior to the convening of
15 each regular session, the Hawaii P-20 partnerships for education
16 advisory council shall submit a report to the legislature that
17 summarizes the evidence-based assessment of its workforce and

10 SECTION 3. There is appropriated or authorized for
11 expenditure out of the Perkins V federal funds received by the
12 State of Hawaii the sum of \$ or so much thereof as may
13 be necessary for fiscal year 2025-2026 and the same sum or so
14 much thereof as may be necessary for fiscal year 2026-2027 for
