# A BILL FOR AN ACT

RELATING TO MARINE LIFE CONSERVATION DISTRICTS.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1           SECTION 1. The legislature finds that marine life  
2 conservation districts (MLCDs) are established by the department  
3 of land and natural resources, as authorized by chapter 190,  
4 Hawaii Revised Statutes, to conserve and replenish the State's  
5 marine resources. All MLCD designations are subject to public  
6 hearings and final approval from the board of land and natural  
7 resources and the governor.

8           The legislature further finds that there are currently  
9 eleven existing MLCDs in the State, with three on Oahu, three in  
10 Maui county, and five on Hawaii island. The first MLCD was  
11 established in the State at Hanauma Bay in 1967, which resulted  
12 in the adoption of a number of measures to restrict human access  
13 in an attempt to protect marine life. According to carrying  
14 capacity studies conducted by the Hawaii Institute of Marine  
15 Biology since 2018, a twice-weekly closure requirement,  
16 reservation system, differential parking fees for residents and  
17 non-residents, \$25 entry fee for non-residents more than

1 thirteen years of age, and mandatory education for visitors,  
2 along with other restrictions, have resulted in a notable  
3 improvement in the area's marine ecosystem.

4 The legislature further finds that MLCDs allow  
5 non-consumptive uses of the area, such as swimming, snorkeling,  
6 and diving. Many local businesses, such as surf schools and  
7 scuba operators, capitalize on the State's ocean resources,  
8 including within MLCDs. However, as the State progresses from  
9 the shutdowns associated with the COVID-19 pandemic into  
10 pre-pandemic tourism levels, appropriate restrictions are  
11 necessary to reduce impacts for the long term.

12 The legislature further finds that Act 31, Session Laws of  
13 Hawaii 2022, was passed to require the department of land and  
14 natural resources to establish and conduct the Pupukea marine  
15 life conservation district carrying capacity pilot program to  
16 identify long-term management options to reduce the impact of  
17 humans on the health and abundance of marine life in the  
18 sensitive areas of the Pupukea MLCD. The legislature believes  
19 that Act 31, Session Laws of Hawaii 2022, is an excellent first  
20 step at addressing the capacity limits of the State's most

1 valuable marine resources and should serve as a model for all  
2 MLCDS in the State.

3 Accordingly, the purpose of this Act is to require the  
4 department of land and natural resources to establish and  
5 conduct a marine life conservation district carrying capacity  
6 program to assess the carrying capacity of the districts and  
7 propose long-term management options to protect the State's  
8 marine life conservation districts.

9 SECTION 2. (a) The department of land and natural  
10 resources shall establish and conduct a marine life conservation  
11 district carrying capacity program to:

- 12 (1) Assess the carrying capacity of state-designated  
13 marine life conservation districts;
- 14 (2) Assess the impact of commercial use on  
15 state-designated marine life conservation districts,  
16 with a focus on how many commercial use permits should  
17 be issued;
- 18 (3) Monitor, document, and assess the effectiveness of:  
19 (A) Mandatory or voluntary kapu, or closures, of  
20 ecologically or culturally sensitive areas in

1 state-designated marine life conservation  
2 districts;

3 (B) Mandatory or voluntary restrictions on certain  
4 activities in state-designated marine life  
5 conservation districts; and

6 (C) Other restrictions on access to areas in  
7 state-designated marine life conservation  
8 districts, including the imposition of fees; and

9 (4) Propose long-term management options to reduce the  
10 impact of humans on the health and abundance of marine  
11 life in the sensitive areas of state-designated marine  
12 life conservation districts.

13 (b) In establishing and conducting the marine life  
14 conservation district carrying capacity program, the department  
15 of land and natural resources shall consult with the counties;  
16 the university of Hawaii, including the Hawaii institute of  
17 marine biology; and existing permit-holding commercial operators  
18 in the State.

19 (c) The department of land and natural resources shall  
20 amend its administrative rules, as appropriate and in accordance  
21 with chapter 91, Hawaii Revised Statutes, to effectuate the

1 results of the marine life conservation district carrying  
2 capacity program.

3 (d) The department of land and natural resources shall  
4 submit a report of its findings and recommendations, including  
5 any proposed legislation, to the legislature no later than  
6 twenty days prior to the convening of the regular sessions of  
7 2027 and 2028.

8 SECTION 3. There is appropriated out of the general  
9 revenues of the State of Hawaii the sum of \$ or so  
10 much thereof as may be necessary for fiscal year 2026-2027 for  
11 the department of land and natural resources to establish and  
12 conduct a marine life conservation district carrying capacity  
13 program pursuant to this Act.

14 The sum appropriated shall be expended by the department of  
15 land and natural resources for the purposes of this Act.

16 SECTION 4. This Act shall take effect on July 1, 2050.

S.B. NO. 2084  
S.D. 1

**Report Title:**

DLNR; Marine Life Conservation Districts; Carrying Capacity Program; Administrative Rules; Report; Appropriation

**Description:**

Requires the Department of Land and Natural Resources to establish and conduct a Marine Life Conservation District Carrying Capacity Program. Requires the Department of Land and Natural Resources to submit a report to the Legislature and adopt administrative rules. Appropriates funds. Effective 7/1/2050. (SD1)
