THE SENATE
THIRTY-THIRD LEGISLATURE, 2026
STATE OF HAWAII

S.B. NO. 2425 S.D. 1

A BILL FOR AN ACT

RELATING TO HEALTH INSURANCE.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

SECTION 1. The legislature finds that substance use disorder remains a significant public health challenge in the State and that timely, uninterrupted access to treatment is essential to recovery and community well-being. The legislature further finds that current insurance payment practices, including restrictions on the assignment of benefits, create administrative and financial barriers for treatment providers and patients seeking care. Therefore, the legislature believes that establishing clear rules for the fair assignment of benefits will promote payment transparency, strengthen provider participation, and improve access to life-saving treatment services.

The purpose of this Act is to increase access to substance use disorder treatment in the State by requiring health insurance carriers to honor a patient's written assignment of benefits to treatment providers. This ensures providers are paid directly, reduces administrative burdens, and protects

patients from the dangers associated with receiving large reimbursement checks after discharge from care.

SECTION 2. Chapter 431, Hawaii Revised Statutes, is amended by adding a new section to article 10A to be appropriately designated and to read as follows:

"**§431:10A- Fair assignment of benefits for substance use disorder services.** (a) A health insurance carrier shall honor and accept a valid written assignment of benefits executed by a covered person for the purpose of directing payment for covered substance use disorder treatment services to the treating provider. Upon receipt of a valid assignment, the health insurance carrier shall issue payment for covered services directly to the substance use disorder treatment provider. Payment made to the provider pursuant to this section shall discharge the insurer's obligation to the extent of the payment made. Payment under this subsection shall be issued within thirty days of receipt of a claim that meets the requirements of section 431:13-108.

(b) No health insurance policy, certificate, agreement, or contract delivered, issued for delivery, or renewed in the State shall contain any provision that prohibits, restricts, or

renders void the assignment of benefits to a substance use disorder treatment provider. Any clause or provision contained in a policy subject to this subsection shall be unenforceable.

(c) The insurance commissioner may adopt rules and take enforcement action necessary to implement this section.

(d) A violation of this section shall constitute an unfair or deceptive act or practice under section 431:13-103.

(e) A health insurance carrier shall provide an explanation of benefits to the assigned provider upon request, if the provider presents a valid assignment of benefits, power of attorney, or authorization executed by the covered person in compliance with the Health Insurance Portability and Accountability Act of 1996. A health insurance carrier's failure to provide an explanation of benefits as required by this section shall be considered a violation of state insurance law and shall be subject to enforcement action.

(f) This section shall apply to all fully insured health benefit plans governed by the laws of the State, except self-funded employer health benefit plans regulated exclusively under the Employee Retirement Income Security Act of 1974, unless and to the extent permitted under federal law.

(g) For the purposes of this section:

"Assignment of benefits" means a written direction by a covered person authorizing a health insurance carrier to pay insurance benefits directly to a substance use disorder treatment provider.

"Covered person" means an individual who is insured under a health insurance plan subject to the jurisdiction of the State.

"Health insurance carrier" means any health insurer, health maintenance organization, mutual benefit society, or other entity subject to state insurance regulation that issues or administers health plans.
