# A BILL FOR AN ACT

RELATING TO CHILD WELL-BEING.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1           SECTION 1. The legislature finds that pregnancy and early  
2 childhood are the most financially fragile periods in a family's  
3 life, yet also the most critical for a child's long-term  
4 development. Scientific research and global experience  
5 demonstrate that direct support during these formative years  
6 yields lifelong benefits for children and society as a whole.  
7 The legislature further finds that while over one hundred forty  
8 countries - representing seventy per cent of the world - provide  
9 direct child benefits, Hawaii continues to see alarming rates of  
10 economic instability among new families, including the highest  
11 concentration of houseless individuals being infants.

12           Therefore, the purpose of this Act is to establish the  
13 Hawaii Rx kids program to provide direct financial support to  
14 all expectant mothers, ensuring every child in the State has a  
15 healthy and secure start to life.

1 SECTION 2. Chapter 346, Hawaii Revised Statutes, is  
2 amended by adding a new section to part I to be appropriately  
3 designated and to read as follows:

4 "§346- Hawaii Rx kids program; expectant mothers;  
5 households; payments. (a) The department shall establish and  
6 administer a Hawaii Rx kids program to improve the economic  
7 stability of households with very young children who reside in  
8 the State.

9 (b) The Hawaii Rx kids program shall provide:

10 (1) A one-time unconditional payment of \$1,500 to each  
11 expectant mother during pregnancy;

12 (2) Six monthly payments of \$500 beginning at the child's  
13 birth and continuing through the child's sixth month  
14 of life; and

15 (3) Subject to available funds, six additional monthly  
16 payments of \$500 through the child's twelfth month of  
17 life;

18 provided that the department may make cost-of-living adjustments  
19 to the payment amounts.

20 (c) The department may contract with a third-party  
21 administrator to operate and manage the Hawaii Rx kids program;

1 provided that the cost of administering the program shall not  
2 exceed fifteen per cent of the total program costs.

3 (d) Any plan for expenditure of temporary assistance for  
4 needy families funds developed pursuant to section  
5 346-51.5(b)(1) shall be updated to account for expenditures for  
6 household payments. The expenditure of funds for the  
7 administration of household payments shall be exempt from  
8 chapters 103D and 103F. Payments under the program that are  
9 sourced from temporary assistance for needy families funds may  
10 only be made to expectant mothers:

11 (1) Who qualify for benefits under the State's medicaid  
12 program; or

13 (2) Whose family income does not exceed three hundred per  
14 cent of the federal poverty level for a family of  
15 applicable size, including the expected unborn child  
16 or children.

17 (e) The department may establish rules as necessary  
18 pursuant to chapter 91 for the administration of the program."

19 SECTION 3. New statutory material is underscored.

20 SECTION 4. This Act shall take effect upon its approval.

21

S.B. NO. 2684

INTRODUCED BY: Karl Rhoads

# S.B. NO. 2684

**Report Title:**

Hawaii Rx Kids Program; Expectant Mothers; Households; Payments;  
Department of Human Services

**Description:**

Requires the Department of Human Services to establish and administer a Hawaii Rx kids program to improve the economic stability of households with very young children who reside in the State through a one-time payment and several monthly payments.
