A BILL FOR AN ACT

RELATING TO AGRICULTURAL GRANT ADMINISTRATION.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that federal agricultural
2 grants provide financial support to Hawaii's agricultural
3 industry. The department of agriculture and biosecurity
4 actively pursues these federal grants and has recently hired a
5 grant writer, whose efforts have yielded great results. Since
6 November 2024, \$8,899,450.16 in federal grant funds have been
7 obtained from the United States Department of Agriculture and
8 another \$5,285,000 in grants have applications in process. Many
9 of the federal grants being pursued by the department provide
10 for indirect overhead reimbursements or an allowable management
11 fee to reimburse the State for costs associated with management
12 of certain federal grants. The establishment of a formal
13 agricultural grant program and a revolving fund would allow the
14 department to retain these funds and cover a portion of the
15 program costs. Funds from the revolving fund would be used to
16 search for additional grant opportunities, develop program
17 applications to monitor grant execution, ensure compliance with
18 grant requirements, and to audit grant expenditures. Moneys in
