
A BILL FOR AN ACT

RELATING TO VETERINARY MEDICINE.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The purpose of this Act is to promote consumer
2 choice, affordability, and transparency by ensuring that pet
3 owners in the State have the right to obtain and fill
4 prescriptions for their animals at a pharmacy of their choice.
5 This Act is intended to remove barriers to competitive pricing,
6 ensure fair access to veterinary medications, and enhance trust
7 between veterinarians and their clients. This Act also seeks to
8 protect consumer rights while maintaining safety and efficacy in
9 the dispensing of pet medications. Additionally, this Act
10 supports the integrity of veterinary practice by preserving the
11 focus on medical care over retail functions and ensuring that
12 veterinarians continue to play a central role in animal health
13 management. Lastly, this Act furthers the State's commitment to
14 consumer rights, affordability, and fair market competition by
15 aligning with existing consumer protection laws and economic
16 policies, such as statutes against unfair or deceptive acts or
17 practices, which promote transparency and fairness in consumer

1 transactions and ensure pet owners, particularly those in rural
2 or underserved areas, can access medications at reasonable costs
3 while preserving high standards of veterinary care.

4 SECTION 2. Chapter 471, Hawaii Revised Statutes, is
5 amended by adding a new section to be appropriately designated
6 and to read as follows:

7 "§471- Requirements for written prescriptions. (a) A
8 veterinarian shall, upon the request of a client, provide a
9 written prescription for any medication prescribed for the
10 client's animal patient without requiring the medication to be
11 dispensed directly by the veterinarian.

12 (b) A veterinarian shall give notice to a client of the
13 client's right to request a written prescription from the
14 veterinarian and the option to have it filled at a pharmacy of
15 the client's choice; provided that the notice may be given via
16 direct communication, posted signage, or digital communication.

17 (c) No veterinarian shall issue a written prescription
18 without the prior establishment of a veterinarian-client-patient
19 relationship, which shall require that a veterinarian has
20 conducted a timely examination of the animal patient or has made
21 medically appropriate visits to the premises where the animal

1 patient is kept. A veterinarian with an existing veterinarian-
2 client-patient relationship shall also have sufficient knowledge
3 of the animal patient's health to make an informed medical
4 judgment and ensure the availability of follow-up care as
5 needed.

6 (d) A written prescription shall contain all of the
7 following information:

8 (1) The name and address of the prescribing veterinarian;

9 (2) The name and species of the animal patient;

10 (3) The name, strength, and quantity of the prescribed
11 medication;

12 (4) Directions for use;

13 (5) The date of issuance; and

14 (6) The veterinarian's signature or equivalent.

15 (e) Any pharmacy duly licensed in the State may dispense
16 the medication prescribed by a licensed veterinarian pursuant to
17 this section; provided that all federal and state certification
18 requirements for handling and dispensing veterinary
19 pharmaceuticals are met.

20 (f) Any veterinarian providing a written prescription
21 shall not be held:

1 (1) Responsible for the improper storage, potential
2 counterfeiting, medication substitution, or dosage
3 errors that may be associated with dispensing from a
4 third-party pharmacy; or

5 (2) Liable for any adverse effects or lack of efficacy in
6 treatment due to externally sourced products.

7 (g) Any veterinarian who violates or fails to comply with
8 this section shall be deemed to have engaged in professional
9 misconduct and may be subject to disciplinary action by the
10 board pursuant to section 471-10, which may include fines, the
11 suspension or revocation of a license, or both.

12 (h) For the purposes of this section, "prescription" means
13 a written order for medication issued by a veterinarian licensed
14 in the State for the treatment of an animal patient."

15 SECTION 3. New statutory material is underscored.

16 SECTION 4. This Act shall take effect upon its approval.

Report Title:

Equality Caucus; Hawaii Board of Veterinary Medicine; Veterinary Medicine; Veterinarian-Client-Patient Relationship; Pet Medication; Consumer Prescription Choice

Description:

Requires veterinarians to provide a written prescription, upon the request of a client, for any animal patient of a client with whom the veterinarian has established an existing veterinarian-client-patient relationship, to be filled at the pharmacy of the client's choosing. Allows pharmacies licensed in the State to dispense medications prescribed by veterinarians. Specifies that violators may be subject to disciplinary action by the Hawaii Board of Veterinary Medicine, which may include fines or suspension or revocation of a license. (CD1)
