Comments:

To Whom it may concern,

I have had the privilege of working with David Wadsworth at Queens Medical Center since 2000. Not only is he excellent at his primary role as a Urology Specialist Radiology Technologist, he has also cross-trained as a surgical first assist and scrub tech to assist us in the unique environment of QMC Kidney Stone Center. David has at all times demonstrated exemplary professional conduct and admirable work ethic. He is well liked and has the personality that can make a day in the OR better.

I believe David would be a valuable addition to the State Board given his extensive Radiology experience and his uncommon additional hands-on role in surgery may provide useful insights as a member of the State Radiation Technology Board. I unreservedly recommend David for the position.

Yours sincerely,

Garry Peers, MD.
