

EXECUTIVE CHAMBERS
KE KE'ENA O KE KIA'ĀINA

JOSH GREEN, M.D.
GOVERNOR
KE KIA'ĀINA

Testimony of
Michael K. Champion, MD
Senior Advisor for Mental Health and the Justice System

Before the
Senate Committee on Judiciary
Friday, April 24, 2026, at 10:20 AM
State Capitol, Conference Room 225 and Videoconference

In consideration of
HCR32, SD1

Requesting the Governor's Senior Advisor for Mental Health and the Justice System to formulate a plan to create places of shelter for persons under civil commitment and for persons who have been recently released from the Hawaii State Hospital and are at risk of recidivism.

COMMENTS

Chair Rhoads, Vice Chair Gabbard, and Members of the Committee:

We are actively working with the Legislature, departments, and stakeholders on several related mental health measures and implementation efforts that bear directly on the objective of this resolution, including implementation of **Act 219, SLH 2025**.

As this work moves forward, it is important to continue strengthening a more organized continuum of care for individuals with mental illness who intersect with the criminal legal system, as well as for individuals on the civil pathway who need appropriate access to treatment and placement. Historically, Hawai'i State Hospital admissions have largely come through the criminal justice pathway, including fitness-to-proceed matters, while the civil pathway remains an area where additional development is needed.

This resolution is also timely considering broader legislative discussions this session, including **SB3142, SD2, HD1**. These issues are connected, and the administration remains committed to working with the Legislature as we move forward.

Testimony of Michael K. Champion, MD

HCR32, SD1

April 24, 2026

Page 2

This work will require continued coordination and planning across the appropriate state agencies and system partners. Our approach is to conduct that work in a practical and collaborative way, including through the Sequential Intercept Model framework, to strengthen pathways to care across the continuum.

Meaningful progress toward these objectives will require continued work across the sequential intercepts to support access to health and mental health care, deflection from arrest where appropriate, diversion from jail where possible, and clinically appropriate pathways to care across the continuum. That work will help improve outcomes, reduce pressure on Hawai'i State Hospital, and create appropriate access for persons who need care through the civil pathway.

We remain committed to working with the Legislature, departments, and stakeholders as this work continues, and we will keep the respective chairs updated as appropriate.

Thank you for the opportunity to testify, providing comments on this resolution.

JOSH GREEN, M.D.
GOVERNOR OF HAWAII
KE KIA'AINA O KA MOKU'AINA 'O HAWAII

KENNETH S. FINK, M.D., M.G.A., M.P.H.
DIRECTOR OF HEALTH
KA LUNA HO'OKELE

STATE OF HAWAII

Testimony COMMENTING on HCR 32
REQUESTING THE GOVERNOR'S SENIOR ADVISOR FOR MENTAL HEALTH AND THE JUSTICE
SYSTEM TO FORMULATE A PLAN TO INCREASE ACCESS TO THE HAWAII STATE HOSPITAL FOR
CERTAIN MENTALLY ILL-CRIMINAL DEFENDANTS.

SENATOR KARL RHOADS, CHAIR
SENATOR MIKE GABBARD, VICE CHAIR
COMMITTEE ON JUDICIARY

Hearing Date and Time: April 24, 2026, Time 10:20 a.m. Location: Room 225 & Video

1 The Department of Health (Department) provides comments on this resolution and
2 appreciates the Legislature's efforts to ensure the Hawaii State Hospital (HSH) is accessible to
3 those individuals who need its services.

4 The Department notes that Hawai'i State Hospital admissions have largely come
5 through the criminal justice pathway while the civil pathway remains an area where additional
6 development is needed. While the title of the resolution is specific to access to HSH for certain
7 mentally ill criminal defendants, the Department believes that the identification, development,
8 and implementation of additional placement and services for those individuals committed to
9 the custody of the Director of Health and in the civil pathway would increase access for non-
10 forensic individuals as well. By focusing on the needs of these populations, there is potential for
11 positive impact on the HSH census and would be extremely meaningful for the operations of
12 HSH.

13 We are committed to working with the Senior Advisor for Mental Health and the Justice
14 System, departments, and stakeholders on coordination and planning efforts as we move
15 forward.

16 Thank you for the opportunity to testify, providing comments on this resolution.

Committee: Judiciary
Hearing Date/Time: Friday, April 24, 2026 at 10:20am
Place: Conference Room 225 & Via Videoconference
Re: *Testimony of the ACLU of Hawai'i Offering COMMENTS on HCR32 SD1*

Dear Chair Rhoads, Vice Chair Gabbard, and Committee Members:

The ACLU of Hawai'i **offers comments on HCR32 SD1** requesting the Governor's Senior Advisor for Mental Health and the Justice System to formulate a plan to create places of shelter for persons under civil commitment and for persons who have been recently released from the Hawaii State Hospital and are at risk of recidivism.

We appreciate the intention of this resolution to seek solutions and avenues to divert mentally ill individuals away from our criminal justice system and toward medical evaluation and treatment.

The ACLU of Hawai'i opposed SB3142 SD2, referred to in this resolution, on constitutional grounds. However, we also believe the apparent increasing attempts to criminalize activity and status of houseless individuals speaks to deep structural issues in our state.

HCR32 SD1 acknowledges that currently the Hawai'i State Hospital is at "full capacity," while at the same time requesting a plan to increase the number of individuals sent there.

Instead, the Governor's Office and the Legislature needs to look toward building capacity further up the pipeline to increase access to mental health services across the state. Not just for those who may have committed a crime.

We would urge the committee to amend the resolution to address the statewide lack of access to mental health services and care, rather than the current more narrow focus on diversions to the full-capacity Hawai'i State Hospital.

Mahalo,
