Aloha e Chair San Buenaventura, Vice Chair McKelvey, and Members of the Senate Committee on Health and Human Services:

The Office of Hawaiian Affairs (OHA) submits this testimony in **SUPPORT OF HCR32** requesting the Governor's Senior Advisor for Mental Health and the Justice System to formulate a plan to create places of shelter for persons under civil commitment and for persons who have been recently released from the Hawaii State Hospital and are at risk of recidivism.

OHA supports these resolutions because they recognize a persistent gap in Hawai‘i’s response to people with serious mental health needs who are cycling through the criminal legal system. When appropriate placements and step-down options are unavailable, people remain in jail, remain at the Hawai‘i State Hospital longer than necessary, or are released without the support needed to stabilize in the community. None of those outcomes reflects good governance, sound public health practice, or meaningful public safety.

These resolutions also reflect an important systems point. Hawai‘i has already invested in diversion and behavioral health intercept efforts, yet the Legislature has heard testimony showing limited movement through those pathways and continued capacity strain at the Hawai‘i State Hospital. A coordinated statewide plan is therefore warranted. The Governor’s Senior Advisor on Mental Health and the Justice System is well positioned to convene the relevant agencies and identify what placements, partnerships, and resources are needed to make existing legal frameworks function as intended.

This issue also carries equity implications. Native Hawaiians are disproportionately impacted by criminal legal system involvement and often face compounding barriers tied to behavioral health needs, unstable housing, and limited continuity of care. Expanding appropriate shelter and transition options for people under civil commitment and for people leaving the Hawai‘i State Hospital can help reduce avoidable recidivism, support treatment

and stabilization, and lessen reliance on carceral settings as a default response to mental illness.

For these reasons, the Office of Hawaiian Affairs respectfully urges this Committee to **PASS HCR32**. Mahalo nui for the opportunity to provide testimony on this measure.

Testimony COMMENTING on HCR 32
REQUESTING THE GOVERNOR'S SENIOR ADVISOR FOR MENTAL HEALTH AND THE JUSTICE
SYSTEM TO FORMULATE A PLAN TO INCREASE ACCESS TO THE HAWAII STATE HOSPITAL FOR
CERTAIN MENTALLY ILL-CRIMINAL DEFENDANTS.

SENATOR JOY SAN BUENAVENTURA, CHAIR
SENATOR ANGUS MCKELVEY, VICE CHAIR
COMMITTEE ON HEALTH & HUMAN SERVICES

Hearing Date and Time: April 17, 2026, Time 1:00 p.m. Location: Room 225 & Video

1 The Department of Health (Department) provides comments on this resolution and
2 appreciates the Legislature's efforts to ensure the Hawaii State Hospital (HSH) is accessible to
3 those individuals who need its services.

4 The Department notes that Hawai'i State Hospital admissions have largely come
5 through the criminal justice pathway while the civil pathway remains an area where additional
6 development is needed. While the title of the resolution is specific to access to HSH for certain
7 mentally ill criminal defendants, the Department believes that the identification, development,
8 and implementation of additional placement and services for those individuals committed to
9 the custody of the Director of Health and in the civil pathway would increase access for non-
10 forensic individuals as well. By focusing on the needs of these populations, there is potential for
11 positive impact on the HSH census and would be extremely meaningful for the operations of
12 HSH.

13 We are committed to working with the Senior Advisor for Mental Health and the Justice
14 System, departments, and stakeholders on coordination and planning efforts as we move
15 forward.

16 Thank you for the opportunity to testify, providing comments on this resolution.

EXECUTIVE CHAMBERS

KE KIA'ĀINA

Testimony of
Michael K. Champion, MD
Senior Advisor for Mental Health and the Justice System

Before the
Senate Committee on Health and Human Services
Friday, April 17, 2026, at 1:00 PM
State Capitol, Conference Room 225 and Videoconference

In consideration of
HCR32
Requesting the Governor's Senior Advisor for Mental Health and the Justice System to Formulate a Plan to Increase Access to the Hawaii State Hospital for Certain Mentally Ill-Criminal Defendants

COMMENTS

Chair San Buenaventura, Vice Chair McKelvey, and Members of the Committee:

We are actively working with the Legislature, departments, and stakeholders on several related mental health measures and implementation efforts that bear directly on the objective of this resolution, including implementation of **Act 219, SLH 2025**.

As this work moves forward, it is important to continue strengthening a more organized continuum of care for individuals with mental illness who intersect with the criminal legal system, as well as for individuals on the civil pathway who need appropriate access to treatment and placement. Historically, Hawai'i State Hospital admissions have largely come through the criminal justice pathway, including fitness-to-proceed matters, while the civil pathway remains an area where additional development is needed.

This resolution is also timely considering broader legislative discussions this session, including **SB3142SD2HD1**. These issues are connected, and the administration remains committed to working with the Legislature as we move forward.

Testimony of Michael K. Champion, MD

HCR32

April 17, 2026

Page 2

This work will require continued coordination and planning across the appropriate state agencies and system partners. Our approach is to conduct that work in a practical and collaborative way, including through the Sequential Intercept Model framework, to strengthen pathways to care across the continuum.

Meaningful progress toward these objectives will require continued work across the sequential intercepts to support access to health and mental health care, deflection from arrest where appropriate, diversion from jail where possible, and clinically appropriate pathways to care across the continuum. That work will help improve outcomes, reduce pressure on Hawai'i State Hospital, and create appropriate access for persons who need care through the civil pathway.

We remain committed to working with the Legislature, departments, and stakeholders as this work continues, and we will keep the respective chairs updated as appropriate.

Thank you for the opportunity to testify, providing comments on this resolution.

Re: *Testimony of the ACLU of Hawai'i Offering COMMENTS on HCR32 / HR32*

Dear Chair San Buenaventura, Vice Chair McKelvey, and Committee Members:

The ACLU of Hawai'i **offers comments on HCR32 and HR32** requesting the Governor's Senior Advisor for Mental Health and the Justice System to formulate a plan to increase access to the Hawai'i State Hospital for certain mentally ill criminal defendants.

We appreciate the intention of this resolution to seek solutions and avenues to divert mentally ill individuals away from our criminal justice system and toward medical evaluation and treatment at the Hawai'i State Hospital.

The ACLU of Hawai'i opposed SB3142 SD2, referred to in this resolution, on constitutional grounds. However, we also believe the apparent increasing attempts to criminalize activity and status of houseless individuals speaks to deep structural issues in our state.

HCR32 / HR32 acknowledges that currently the Hawai'i State Hospital is at "full capacity," while at the same time requesting a plan to increase the number of individuals sent there.

Instead, the Governor's Office and the Legislature needs to look toward building capacity further up the pipeline to increase access to mental health services across the state. Not just for those who may have committed a crime.

We would urge the committee to amend the resolution to address the statewide lack of access to mental health services and care, rather than the current more narrow focus on diversions to the full-capacity Hawai'i State Hospital.

Mahalo,

Josh Frost
