### **BUDGET REQUEST FOR THE FISCAL YEAR 2027**

Honorable Chair Dela Cruz, Chair Keohokalole, and Members of the Ways and Means and Commerce and Consumer Protection Committees:

My name is Nadine Ando, and I am the Director of the Department of Commerce and Consumer Affairs ("DCCA" or "Department"). I appreciate this opportunity to discuss the Department's fiscal year ("FY") 2027 budget with the members of the Committees.

#### **Overview**

The Department's mission is to promote a strong and healthy business environment by upholding fairness and public confidence in the marketplace, and by increasing knowledge and opportunity for our businesses and citizens.

DCCA's funding structure was established by the Legislature in 1996 through the creation of the compliance resolution fund ("CRF"). The CRF is the primary funding source for DCCA's programs. The Department's financial strategy is based on ensuring that divisions have revenues to pay their expenses and that they contribute equitably to departmental overhead costs, while maintaining sufficient reserves to address unexpected contingencies. The Legislature's foresight to develop this self-sufficiency model has benefitted our customers and the public we serve and the State over many years. Self-sufficiency notwithstanding, strong fiscal oversight continues to be important to the Department. Consistent with applicable law, the fees and revenue collected

by the Department are provisioned for the purpose of delivering important commerce and consumer protection related services.

Toward that end, I appreciate the Committee's thorough review and consideration of the Department's budget.

### **Impact of Current Economic and Fiscal Conditions**

The Department and its divisions and attached agencies continue to address the challenges of operating in a quickly evolving consumer and business environment leveraging technological advances to meet increasing public needs. Notably, DCCA continues to embrace the use of technology to make online resources available to consumers. The Department's Business Registration, Insurance and Professional and Vocational Licensing divisions each have online portal services that have made critical business workflows available to Hawaii's businesses and industries. In the past year, reporting complaints to the Regulated Industries Complaints Office and the Office of Consumer Protection (OCP) has evolved to user-friendly online complaints filing portals, the Public Utilities Commission (PUC) has transitioned to all-electronic filing processes and have commenced development of their new Consolidated Docket Management System (CDMS), and the Office of Administrative Hearings provides an option for electronic hearings. Our focus on electronic filings highlighted the critical need to update and replace legacy systems, and to develop and enhance robust and redundant IT systems that can effectively support the growing needs of the Department. In addition, the department has launched its toll free number and centralized call center where the public can now call one number to access any division at DCCA for services and are modernization of webpages which is scheduled to be completed by the end of January 2026.

The DCCA continues its advocacy for reliable and affordable regulated services; advancing clean energy and resiliency initiatives while ensuring safe, reliable, and affordable rates; ubiquitous and affordable telecommunications and broadband services and promoting affordable water services; and wiser use of the limited resources for our low and middle income families.

We have experienced challenges encountered while filling critical personnel vacancies and retention of staff. Recruiting and retaining qualified personnel remains a top priority, especially as it can take three to five years to fully train new technical and field staff. While this is not unique to DCCA, we will pursue innovative ways to recruit and retain personnel, working closely with DHRD.

The legacy of the August 2023 wildfires continues to profoundly shape regulatory operations. The Department is currently managing a substantial increase in complex filings related to utility financial integrity and disaster restoration, while preparing for a projected rise in mortgage-related complaints as foreclosure moratoriums expire. Additionally, rebuilding

efforts in affected areas have contributed to a surge in infrastructure-related safety notifications and a need for more granular risk assessments.

The rapid evolution of technology has introduced both operational opportunities and emerging threats. While the Department is aggressively modernizing legacy IT systems to provide user-friendly digital portals, it must also address the rise of AI-powered fraud, data privacy breaches, and sophisticated scams that scale more easily in a digital environment. Transitioning to a clean energy economy further adds complexity, requiring the balancing of ambitious renewable standards with the need to ensure safe, reliable, and affordable rates for all citizens, particularly low-income and vulnerable populations

The Department, thus, takes a selective approach when developing its budget that aims at addressing the essential needs of the Department, including general cost adjustments felt by all agencies, and makes requests to utilize resources in a manner that most efficiently allows DCCA to carry out its mission.

### **Federal Funds**

None of the Department's programs have lost or are at risk of losing federal funds.

### **Non-General Funds**

### **Budget Request**

The Department formulated a budget that provides the resources necessary for our programs to perform their functions and meet their goals and objectives. Pursuant to instructions in Finance Memorandum 25-13 issued by the Department of Budget and Finance ("B&F"), notable requests in the current budget include:

- **Fringe Benefits.** DCCA requests ceiling increases of \$1,178,302 across 7 programs to ensure adequate funding to fully fund employer obligations for authorized positions.
- **DCA Operations Funding.** DCCA requests a ceiling increase of \$595,915 for the PUC to fund the operations of the Division of Consumer Advocacy, pursuant to HRS 269-33.
- **Central services assessments costs.** CSA paid out by the department has been more than the line item allowed for it, causing operational deficiency.

- **Communications Budget.** The department requests funding to expand outreach to the public.

### **Additional Information**
