- A. The primary mission of the State of Hawaii, Department of Defense (DOD), is to enable a safe, secure, and thriving Hawaii. To achieve this, DOD employs an inclusive, community-based approach to prepare the State for catastrophic natural or manmade disasters. DOD coordinates preparedness activities that enhance the State's ability to prevent incidents, build resilience to withstand the impacts of disasters, and organize capabilities, capacities, and authorities to rapidly respond to and recover from catastrophic events.
- B. Current statewide conditions have not affected DOD's ability to operate and respond. However, one condition impacting the DOD is the current fringe rate. Federal program policy is shifting toward fixed budget allocations or directing funds to projects rather than personnel. These impacts are being experienced within the Hawaii'i Emergency Management Agency (HIEMA) and the Youth Challenge Academy.
- C. Federal Funds at risk:
1. CFDA 97.042 Emergency Management Performance Grant (\$3.2-\$3.5 million annually). HIEMA uses this grant to fund critical personnel and projects related to Operations, Logistics and Community Outreach projects. There is also an allotment to each of the counties within this grant. With expected losses in preparedness grants, HIEMA submitted Form A requests for General funds to offset costs of these critical positions, software, travel, and supplies for FY27. FEMA is reducing the current POP (period of performance) to a one-year period. This makes matching 1 for 1 difficult as projects/personnel time need to be tied to the EMPG projects to be eligible match dollars.
 2. CFDA 97.047 97.143 Pre-Disaster Mitigation Grant Congressionally directed spending FFY25 was cancelled by FEMA HQ. Our last award FFY24 : \$1,383,069.00. This project supported Poli Moni Medical Center's back power generator.
 3. CFDA 97.047 Building Resilient Infrastructure & Communities FFY24 was cancelled FEMA HQ. The last award FFY23 : \$1,999,981.05 to the State of Hawaii. Under BRIC FY20-23, we have 19 Projects totaling \$15,109,355.23. Of

the 19 Projects, FEMA fully obligated 13 Projects for \$5,275,307.67. There are 6 Projects still under FEMA review.

4. CFDA 11.467 National Tsunami Hazard Mitigation (\$225k-\$443k annually)
This grant has seen significant reductions over the past 4 years from (\$648k FY22 to \$225k FY25). Grant has funded community resilience projects and siren projects. In FY25, HIEMA leveraged this Federal Grant to repair or replace 7 sirens statewide.

5. CFDA 97.046 Fire Management Assistance Grant – As of Feb 2025 FEMA is re-evaluating this program (varies); last award DR5474 lock in letter: \$5,512,644.00 (award is in phases)

6. CFDA 97.039 Hazard Mitigation Grant – It is no longer guaranteed FEMA will authorize HMGP 404 despite a presidential declaration. The last lock in letter for DR4793 would be \$422,234.00. On Oct.15,2025, HIEMA submitted a Project application for the hardening of the DHHL/HIEMA Warehouse. The Project is under FEMA review.

7. The DR4724 HMGP 404 lock in letter is for \$429,577,073.00. Under DR 4724 HMGP 404, the State of Hawaii submitted 44 priority project applications. As of Jan.5, 2026 there are 7 applications awaiting DHS review. For HIEMA projects (2 of the 44) we requested CIP Funds to cover the 25% State cost share.

E. Process used to develop the agency's budget and prioritize requests for budget changes.

DOD prioritizes budget requests based on the ability to meet mission requirements and ensure the safety of our personnel and the people of Hawai'i. Upon receipt of the Department of Budget and Finance's (B&F) Finance Memorandum for supplemental budget preparation, DOD takes the following actions:

The Director, DOD, issues guidance for budget requests. Requests are limited to life safety, sustainment, adjustments and federally funded positions.

Administrative Services Office (ASO) directs all programs to prepare and submit Operating Budget and Capital Improvement Project requests in accordance with B&F budget policies and guidelines.

ASO receives all program submissions and reviews, clarifies, and corrects them as necessary. Operating and CIP requests are prioritized and recommended for the Adjutant General's review, modification, and approval.

Prioritized budget requests are compiled and submitted to B&F for review and approval by the established submission deadline.

B&F questions and comments are addressed, and B&F budget recommendations are received.

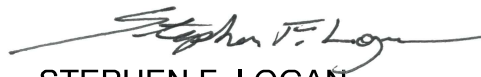

Appeals to the Governor's Office are submitted, as required, for budget requests denied or amended by B&F.

Approved budget requests are finalized and submitted to B&F for Legislative submittal by the required deadlines.

F. Significant Adjustments contained in the budget request:

- 1) The Department of Defense is requesting no state funding for personnel or operational expenses; however, we are requesting four additional positions that are federally funded.
- 2) \$43.25M additional CIP funds (\$20.9M in State funds and \$22.35M in Federal funds) requested in the FY27 supplemental CIP budget for a total of \$51.25M CIP funds in FY27 (\$27.4M in State funds and \$23.85M in Federal funds). Please see Table 15 for details.

If you have any questions or require further clarification regarding our response, please contact our Administrative Services Officer, COL (R) Rusty Spray at (808) 369-3458 or via email at rusty.spray@hawaii.gov.

DEF116	AB	HC	8	26	Establish new Engineer V (#97607G)	There is a confluence of an increasing repair and maintenance project workload and a growing backlog of deferred maintenance that is very complex due to Army's aging facilities. This position will address immediate repair and maintenance projects and critical deferred maintenance before they become a safety or hazard to the tenants in the facilities. This position will also supervise lower engineers and construction reps in the section and provide a more effective hierarchy.	P						1.00	83,578
DEF116	AB	HC	9	27	Add funds to redescribe Pest Tech IV to Vector Control Worker III (#96602G)	Redescribing the position to a vector control class specification is more inline with what the Hawaii Army National Guard needs to control and mitigate health issues caused by rodents, insects, and other feral animals.	P							27,571
DEF116	AB	HC		28	Add funds to redescribe Admin SRT Assistant to Admin Assistant IV (#117979)	The Administrative Specialist position will serve as the communications hub for the office, fielding inquiries, managing information and maintaining records for the CFMO. This position is critical for managing files, correspondence, schedules, keep track of required training, timekeeping, and implementing administrative procedures that streamline workflows and quality controls. Key personnel need to concentrate on important tasks within their own areas of responsibility.	P							31,451
