Dean Shivvers	Testifying for Hawaii State Chiropractic Association	Support	Written Testimony Only

Comments:

Aloha Chair, Vice Chair, and Members of the Committee,

My name is Dean Shivvers, and I am the President of the Hawaii State Chiropractic Association (HSCA), representing licensed chiropractors across our state.

I am writing in strong support of SB2050.

This measure allows chiropractic students enrolled in accredited chiropractic colleges to engage in clinical practice as part of their formal education under the direct supervision of a licensed chiropractor. This is a reasonable, responsible, and important step forward for the chiropractic profession in Hawaii.

Clinical training is a foundational component of healthcare education. Every healthcare discipline — including medicine, nursing, and physical therapy — relies on supervised clinical experience to ensure students graduate competent, confident, and safe. Chiropractic education is no different. In fact, accredited chiropractic colleges already require extensive supervised clinical training prior to graduation.

SB2050 does not expand scope of practice. It does not lower standards. It simply clarifies that supervised clinical participation, under the oversight of a licensed Hawaii chiropractor, is permissible and appropriately regulated.

This bill will:

- Strengthen the pipeline of future chiropractors entering Hawaii
- Improve recruitment and retention of providers in underserved areas
- Ensure students receive hands-on experience while maintaining patient safety
- Allow the Hawaii Board of Chiropractic to adopt rules to ensure proper oversight

Patient safety remains paramount. Direct supervision by a licensed chiropractor ensures that care delivered in a clinical teaching setting meets the same professional standards expected throughout our state.

Chiropractic care is widely utilized by Hawaii residents for neuromusculoskeletal conditions. Ensuring that future chiropractors are well-trained through structured, supervised clinical experiences protects the public and strengthens our healthcare workforce.

On behalf of the Hawaii State Chiropractic Association and the patients we serve, I respectfully urge the Committee to pass SB2050.

Mahalo for the opportunity to provide testimony.

Dean Shivvers

President

Hawaii State Chiropractic Association

LATE

Comments:

In strong support of SB2050 with requested amendment: to change the effective date to upon approval of this bill. There is no reason to postpone until 2028.

This bill would allow chiropractic students in school to be able to work in clinical practice under supervision of licensed chiropractors as part of their education or for school credit.

A preceptorship is a structured period of training and support for new professionals to transition from students to autonomous professionals. In a preceptorship, a more experienced licensed chiropractor would guide the student to develop their clinical skills and competence. By allowing chiropractic students the ability to treat real patients under supervision (like they do for nursing and dentists) would help to increase availability and access to more chiropractors to the public.

We don't have that many chiropractors currently in Hawai'i - total around 85. This would increase the trained pipeline for Hawai'i's chiropractic workforce and grow the industry in Hawai'i.

Comments:

Chair, Vice Chair, and Members of the Committee,
I respectfully support SB2050 SD1.

This bill allows chiropractic students enrolled in accredited colleges to participate in clinical training under the direct supervision of a licensed chiropractor, with rules adopted by the Hawaii Board of Chiropractic to ensure safety and oversight.

Supervised clinical education is a standard part of healthcare training and does not expand independent practice. Licensed chiropractors remain fully responsible for patient care.

This measure strengthens workforce development while maintaining patient protections.

I urge you to pass SB2050 SD1.

Mahalo for your consideration.

Comments:

Aloha Chair Keohokalole and Members of the Committee,

I am writing to reaffirm my strong support for SB2050, SD1.

As a chiropractic patient for over 30 years and a former Chiropractic Assistant for more than seven years, I understand the importance of structured education, professional standards, and accountability within the profession.

This measure responsibly allows chiropractic students enrolled in qualified colleges to participate in supervised clinical practice beginning July 1, 2028. Direct supervision by a licensed chiropractor ensures patient safety while strengthening the educational pathway for future providers.

Requiring the Hawaii Board of Chiropractic to adopt rules provides an additional layer of oversight and public protection.

SB2050 supports workforce development while maintaining safeguards for our community. I respectfully urge your continued support of this measure.

Mahalo,

Teri Kia Savaiinaea

Current Chiropractic Patient

Former Chiropractic Assistant (7+ years)

Comments:

Chair, Vice Chair, and Members of the Committee,
I respectfully support SB2050 SD1.

This bill allows chiropractic students enrolled in accredited colleges to participate in clinical training under the direct supervision of a licensed chiropractor, with rules adopted by the Hawaii Board of Chiropractic to ensure safety and oversight.

Supervised clinical education is a standard part of healthcare training and does not expand independent practice. Licensed chiropractors remain fully responsible for patient care.

This measure strengthens workforce development while maintaining patient protections.

I urge you to pass SB2050 SD1.

Mahalo for your consideration.
