SB2896,SD1
RELATING TO COMMERCIAL DRIVER'S LICENSES

Senate Committee on Judiciary

The Department of Transportation (DOT) strongly supports S.B. 2896, S.D. 1, which seeks to lower the minimum age for obtaining a commercial driver's license from twenty-one to eighteen years of age, repeals the requirement that a person only operates category 3 vehicles to qualify for a commercial license, and requires the Department of Transportation to amend its rules accordingly.

This legislation aligns with the DOT's commitment to balancing workforce development needs with public safety. By lowering the qualifying age to eighteen, the bill enables more young drivers to enter the commercial transportation sector earlier, addressing potential labor shortages in the industry while ensuring that all drivers meet rigorous federal and state standards. As stated in Section 1 of the bill, persons must still comply with Title 49 Code of Federal Regulations part 390–396, subpart B, except section 391.11(b)(1), in the case of intrastate drivers involved in intrastate commerce. This ensures that even younger drivers are held to high federal safety standards.

Additionally, the removal of the category 3 vehicle restriction allows for greater flexibility in hiring and training, particularly for drivers who may be transitioning into commercial driving roles. The bill also includes important safety safeguards, such as requiring drivers to have held a category 3 state driver's license for the two years prior to driving commercially and prohibiting those with certain traffic convictions—including speeding excessively, reckless driving, or unsafe lane changes—from operating commercial vehicles. These provisions help maintain accountability and reduce risk.

To ensure state compliance with the under 21 CDL, the DOT recommends amending HRS 286-236(a)(1) and adding subsection (i) with the following language below:

HRS 286-236(a)(1):

(a) No person shall be issued a commercial driver's license unless that person:
(1) Meets the qualification standards of title 49 Code of Federal Regulations, part 391, subparts B and E; provided that for issuance of a commercial driver's license to an

applicant who is eighteen years of age or older but under twenty-one years of age, compliance with title 49 Code of Federal Regulations section 391.11(b)(1) (minimum age) shall not be required if the license is restricted to intrastate operation pursuant to subsection (i);

HRS 286-236(i):

(i) Intrastate licenses for applicants under twenty-one. Notwithstanding subsection (a)(1) and title 49 Code of Federal Regulations section 391.11(b)(1), the examiner of drivers may issue a commercial driver's license to a person who is eighteen years of age or older but under twenty-one years of age if:

(1) The license bears the "K" restriction indicating operation is limited to intrastate commerce, as described in section 286-239(b)(9);

(2) The applicant meets all other state and federal requirements applicable to the license class and endorsements sought, including medical certification (49 C.F.R. part 391), entry-level driver training (49 C.F.R. part 380), knowledge and skills testing (49 C.F.R. part 383), and controlled substances and alcohol use and testing (49 C.F.R. part 382); and a license issued under this subsection shall not authorize operation in interstate commerce.

The DOT supports this legislative effort because it promotes a more inclusive and responsive approach to workforce development without compromising safety. The proposed changes reflect modern industry demands and provide a pathway for qualified individuals to contribute to Hawaii's transportation infrastructure.

Thank you for the opportunity to testify in support of this bill.

Time: 10:15 a.m.
Place: Conference Room 016, State Capitol

From: Jade T. Butay, Director
Department of Labor and Industrial Relations (DLIR)

Re: S.B. 2896 S.D.1 RELATING TO COMMERCIAL DRIVER'S LICENSE

The DLIR **supports the intent** of this measure and offers comments. The DLIR defers to the Department of Transportation as the lead agency on the responsibilities assigned to it under the bill as amended. The DLIR supports and can carry out the duties assigned to the department in the SD1.

This measure lowers the minimum age for individuals who may drive commercially within the State from nineteen to eighteen, provided that any driver under the age of twenty-one does not operate a commercial vehicle outside the scope, supervision, or duration of an approved training or apprenticeship program.

While lowering the minimum age for commercial driving is expected to expand the pool of eligible commercial drivers and benefit the State, the DLIR is concerned that the existing shortage of commercial driver license examiners may be exacerbated.

Thank you for the opportunity to provide testimony on this important matter.

The Honorable Karl Rhoads, Chair
The Honorable Mike Gabbard, Vice Chair
and Members of the Senate Committee on Judiciary
State Capitol, Conference Room 016
415 South Beretania Street
Honolulu, Hawai'i 96813

Dear Chair Rhoads, Vice Chair Gabbard, and Members of the Senate Committee on Judiciary:

SUBJECT: S.B. No. 2896, S.D. 1 - Relating To Commercial Driver's Licenses
HEARING: Tuesday, March 3, 2026, 10:15 a.m.

The City and County of Honolulu, Department of Customer Services (CSD) respectfully offers testimony in **support** of S.B. No. 2896, S.D. 1 for your committee's consideration. Pursuant to Section 6-402 of the Revised Charter of the City and County of Honolulu, CSD Division of Motor Vehicles (DMV) administers the motor vehicle driver licensing program for the island of O'ahu.

CSD supports this measure because it provides a meaningful opportunity to strengthen Hawai'i's workforce while maintaining appropriate licensing standards. Lowering the minimum age for an intrastate commercial driver's license to eighteen years of age expands the pool of eligible drivers at a time when many industries are experiencing persistent workforce shortages.

This bill also creates earlier access to structured training and supervised commercial driving experience. Allowing qualified young adults to enter the commercial driving field sooner supports career development, skill-building, and long-term workforce retention. For many residents, commercial driving offers a stable career path with competitive wages and opportunities for advancement.

Testimony for S.B. No. 2896, S.D. 1
February 26, 2026
Page 2

From an administrative perspective, aligning state law with federal intrastate allowances provides clarity and consistency in licensing requirements. With appropriate safeguards in place, this measure supports workforce development goals while preserving public safety and regulatory oversight.

For these reasons, the Department of Customer Services **supports** S.B. No. 2896, S.D. 1.

Thank you for this opportunity to provide testimony on S.B. No. 2896, S.D. 1.

Sincerely,

for Kimberly M. Hashiro
Director

**TESTIMONY OF TINA YAMAKI, MANAGING DIRECTOR
HAWAII TRANSPORTATION ASSOCIATION
March 3, 2026
SB 2896 SD1 RELATING TO COMMERCIAL DRIVER'S LICENSES.**

Aloha Chair Rhoads and members of the Senate Committee on Judiciary. I am Tina Yamaki, Managing Director of the Hawaii Transportation Association and I appreciate this opportunity to testify.

The Hawaii Transportation Association (HTA Hawaii) was founded in 1938 and incorporated in 1963, and is a private, non-profit trade organization dedicated to the service and assistance to the commercial ground transportation industry in the State of Hawaii. Our members include family owned small and medium sized businesses, independent owner operators, and national motor carriers range from delivery services to passenger carriers - as well as allied industry partners.

HTA Hawaii strongly supports SB 2896 SD1. This measure lowers the age of who may drive commercially within the State from nineteen to eighteen; repeals the requirement that a person only operates category 3 vehicles to qualify to drive commercially in the State; prohibits a person under twenty-one years of age from operating a commercial motor vehicle outside of state-approved commercial driver training programs or registered apprenticeship programs as determined by the Department of Labor and Industrial Relations; and requires the Department of Transportation to consult with DLIR to amend its rules to allow persons under twenty-one years of age to operate a commercial motor vehicle under certain conditions.

This measure represents a responsible workforce development strategy that expands the commercial driver pipeline while maintaining appropriate oversight and safety controls. Hawaii's supply chain and service economy depend heavily on intrastate commercial transportation, and creating earlier entry pathways into the profession is both economically and operationally prudent.

We agree that a driver under twenty-one should be required to complete a **state-approved commercial driver training program or registered apprenticeship program, as determined by DLIR**. Structured, standardized training is essential to ensure competency, safety, and regulatory compliance.

However, we have concerns with language requiring that a person under twenty-one may operate a commercial motor vehicle **ONLY** if that person is **actively enrolled** in such a program. If an individual has already completed and successfully passed a state-approved training program, requiring continued "active enrollment" may be unnecessarily restrictive and administratively burdensome.

The objective should be competency and completion and not continuous enrollment status. Once a driver has (1) Successfully completed a state-approved commercial driver training or apprenticeship program; (2) Satisfied all licensing requirements; (3) Demonstrated proficiency through required examinations; and (4) Met all DOT and DLIR regulatory standards, there appears to be no compelling rationale to prohibit lawful operation solely because the individual is no longer formally enrolled.

We recommend amending the language to allow individuals under twenty-one to operate a commercial motor vehicle if they have **either successfully completed** a state-approved program **or are actively participating in one**, subject to any supervision or graduated restrictions deemed appropriate by DOT.

Additionally, we continue to support the inclusion of **requiring employers to provide a minimum of 320 hours of documented training**, with maintained records subject to review. Clear documentation and accountability mechanisms will ensure the integrity of the program while supporting workforce expansion.

SB 2896, SD1 strikes an appropriate balance between safety and workforce development. With clarification to focus on successful completion rather than continuous enrollment status, the measure will be both practical and effective.

Mahalo for this opportunity to testify.
